ACKNOWLEDGEMENT

Most of all, I want to acknowledge and thank to God with my deepest gratitude for the miracles He has performed in my life for the completion of this practical report. I am able to complete this assignment which facilitated the completion on this industrial training report. This Industrial training report would have not been carried successfully without the cooperation from many parties who contributes in preparing and completing this study.

My sincere thanks and gratitude are extended to my dedicated and understanding advisor Sir Muhamad Syukrie Bin Abu Talip, the lecturers of Universiti Teknologi Mara, for the guidance and assistance, understanding and commitment throughout the duration of this work. The encouragement, understanding, suggestion and criticisms were helpful in completing this practical report.

I am also deeply indebted with the OIC Hajah Rosmah, RO John Jadol, RO Rachel, PT Lillianita Tutong, PT Florence Mane, AAO Razaman, AA Tiram Mengga, AA Desmond Rangub, SAA Yusli Syawal , AA Muriani Harry, SAA Agam Giang and all staffs at Stesen Pertanian Kabuloh for cooperation in providing materials and information for this practical report.

A special word of appreciation goes to all individuals and my friends who involved directly or indirectly in giving useful information and valuable comments for me in completing the practical report. Not to forget, I am grateful to have very understanding family member who always support my concern about my practical report. Here, I am honoured to state my family member and giving me courage.

Thank you very much once again for all people have been involved during the completing process in my practical report. The cooperation are kindly appreciative.

INTRODUCTION

INTRODUCTION OF INDUSTRIAL TRAINING

Industrial training is a prerequisite to the award of Diploma students In Planting Industry Management, Universiti Teknologi Mara. It is also designed to give exposure and experience to the students about the real situation in their respective fields and early preparation for students before they enter the working world. For sessions from November 2015 to March 2015, the training runs for 3 months starting 30 November 2015 until 6 March 2016. I was stationed at STESEN PERTANIAN KABULOH MIRI,SARAWAK.

THE IMPORTANCE OF INDUSTRY TRAINING

Training is a branch of knowledge that provides an opportunity for every student to apply the learning process experienced during a session in the classroom. It can be seen from different perspectives, for example, indirectly it can intensify existing skills found in a student's own self as well as gain new skills and knowledge in a particular field of work through.

In addition, industry training also reduces nervousness and feeling awkward when students face the real working world will realize the ambitions and dreams while studying. All the solutions of the problems the industry training will be a maturing experience for yourself. Indirectly, it will bring awareness to the students that the situation in the workplace actually is not as easy as they have learned in theory and practice while learning.

On the other hand, industrial training is important because it makes it easier for students to apply for suitable positions after graduation. This is no doubt because in general the firm emphasizes individuals with high knowledge and work experience. Therefore, it is possible that the company offers a place for former trainees after graduation.

However, the input obtained from this training is very large. Students can use the experience and skills acquired during the training period as a guide and supply in the future. In addition, the difficulty encountered during this period will be a key enabler and catalyst for students to improve the performance of a high extent and make sure the student become dedicated worker.

OBJECTIVES OF INDUSTRIAL TRAINING

Training is one of the requirements for each student before qualifying to receive the award of a diploma from the Universiti Teknologi Mara, Campus Kota Samarahan, Sarawak. The main objective is to provide industrial training to students will experience the world of work before completing their studies.

- The other objectives of industrial training is to :

1. This training is intended to expose students to the real working environment and gain knowledge in the field.
2. Practice the theory and practice learned in college.
3. Inculcates the value of trust and responsibility and able to work with other staff.
4. Strengthen the confidence of students when completed training
5. Learn how to closer with senior officials such as managers, assistant managers and employees in training.
