Assalamualaikum WRT.

We thank god with all His entire we are able to complete our business planner according to what has been outline by the subject. The main reason to produce the Business Planner is to fulfill a certain condition, which needed under the subject fundamental of entrepreneurship 300 (ETR 300). This subject has been compulsory subject for all the part 06 student of UiTM. Other than that, the business planner is giving us a chance to experience how to form a business and also manage a particular business in a very sufficient ways.

In conjunction of the above, it has become our responsibility to do some research, analysis, and to have questionnaire for us to produce a project and qualified business planner. Besides that, we may form some understanding and corporations among each other. We are able to know and to understand the characteristics needed to become a successful entrepreneur. The business planner will also provide the students various ways that is considered suitable to start a business and to support the challenge made by the government in increasing the number of bumiputera entrepreneurs in our country.

This project might not be able work smoothly without any help and support from the parties involved. We really appreciate all the information, guidance and comment by everyone.

Hopefully Allah S.W.T will bless our efforts.
