## ACKNOWLEDGEMENT

*“In the name of God, the Most Gracious and Most Merciful”*

Alhamdulillah, first praise is to Allah, the Almighty, on whom ultimately we depend for sustenance and guidance. Without His blessings and strengths, I would not be able to complete this dissertation.

This dissertation would not have been possible without the support of many people. Special appreciation and thank you goes to my wonderful supervisor, Dr. Johan @ Eddy Luaran for his supervision and constant support. I really appreciate his time, effort, patience and advice in the whole process of completing this work. This work would not have been successful without his invaluable help of constructive comments and suggestions.

I would also like to place on record my deepest gratitude to my beloved parents, Ali bin Jusoh and Zaiton binti Harun, my dear husband, Ali bin Alias and siblings for their endless love, prayers and encouragement. I'm indebted to them for their unceasing support and belief in me in completing this work.

Last but not least, I would like to extend huge, warm thanks to lecturers and committee members of Terengganu EDU770 classmates especially Nurul Azani binti Samsuddin and Erny Suriati binti Ezudin for helping when I am in need. To dear best friend, housemates and colleagues, thank you for being great support through my ups and downs. To those who indirectly contributed in this study, your kindness means a lot to me.

Thank you very much.

## **ABSTRACT**

In this Digital Age, information technology is becoming more widespread in this country serving various sophisticated systems and gadgets that are introduced and utilized to simplify daily works. The rapid changes are also undergoing in the field of education. In Malaysia, the state of Terengganu has fore fronted the importance of technology integration in education. Thus, e-book has been adopted in the education system. This research aimed to investigate the level of acceptance of e-book usage among primary school teachers in Terengganu. There were four research objectives examined which were to: i) identify the level of e-books competencies among primary school teachers in Terengganu; ii) examine the level of acceptance of e-books usage in classroom among primary school teachers in Terengganu; iii) identify the problems that arose in using e-books in classroom and (iv) identify ways to address the problems in using e-books in classroom. 90 primary school teachers in Hulu Terengganu district in Terengganu were involved. Quantitative approach were employed with questionnaires were used as the instrument. Findings revealed that primary school teachers in Terengganu were not sure of their e-books competencies' level. However, they have positive attitude in showing their acceptance in e-books usage in classroom. As for the problems that arose in using e-books, the primary school teachers had highlighted that one of the problems is student misused e-books provided to them. Hence, they have suggested some ways to address the problems. One of the ways is by having regular monitoring and supervision from the state government on the e-books usage in school.
