"Evolution of Faculty Information Management"
Assalamualaikum W.B.T

Alhamdulillah, a big Thankful to Allah S.W.T. for all of His great work in helping us to succeeded produce the amazing FIM Communication Publication 2015/2016 session for IML 601 subject.

In this space, I am Nazira Binti Jamil as the Chief Editor of FIM Communication Publication would like to express my great gratitude and special dedication to those people who have involved and worked hard towards FIM Communication Publication.

Special dedication to our precious lecturer Sir Azmi Ab Rahman for assisting, the knowledge sharing and monitoring the progression of FIM Communication until it is done sophisticate.

In addition, it is an honoured for me to have this kind of fantastic team work and wonderful experiences that can cherished all of us throughout this semester.

The quality of this IML 601 subject have been proven in terms of the students need to produced their own article to gain more knowledge and this subject have built us the credibility and faith towards you selves to be more confidence as an Information Professionals in the near future.

To roll up, hopefully Faculty of Information Management will move forward and shining brightly in producing a lot of brilliant graduates to empowering our country’s education in the near future. Here I will ended with Martin Luther King Jr. saying “Intelligence plus character that is the true goal of education”.

Wassalam..

Ziraa J
FIM was published bi-annually by Bachelor of Information Science (Hons) Library Management @ IM244 pursuing Publication and Production of Information Materials (IML601). The scope of the plan includes variety of issues in the field of information management.

Faculty of Information Management in Information Management Development in Malaysia

Current View 37
Contemporary Issue and Guide to Information Professionalism

Creative Section 42
Nowadays, the need of employment is very important today. There are many employment opportunities created in the current era. Government and private sector itself has created to accommodate the latest post graduates who graduated from either public or private institutions. The academic program coupled repair by adding additional courses to provide a complete input by attached graduate training in the industry as one of the lessons. Graduates will be knowledgeable and skillful in the working world in the future and to overcome the challenges of managing information in various forms and in various organizations.

For the Faculty of Information Management UiTM, is the pioneers in promoting information management in Malaysia. There are several that have been academic programs are offered for professional education to meet the needs of workers in Malaysia such as Library Management, Records Management, System Management, and Resource Centre. They can learn on how to imply what brand of driver information for the development of state and society.

It shows Malaysia as a mover informational and become an advanced and rich source of information and knowledge. To achieve a high level and regular, Faculty of Information Management, UiTM create a mixture of components in four key areas Information Technologies, Professional and Technical Aspects of Information and Records Management, Public Relations, and Users’ Needs and Services.

Courses in Faculty of Information Management

In the faculty of information management they offered a program such as Library Science, Information Systems, Record Management and Resource Centre Management came under the auspices of the faculty.
Scope of work

Library Sciences

Graduates from courses of Library Sciences will have the opportunity to work in libraries and information centers as librarians, library executives, information specialists, information consultants, information officers, abstractors, indexers, bibliographic compiler, and library consultants. As a well-educated librarian, will try something new. The professional field in dire need of workers who believes. This is due to our need to deal with consumers. In addition, it requires strong performance of a worker's education and work experience, as well as a strong commitment to continuous learning and keeping up with the latest in technology. As a librarian he/she must broad-based, forming, managing and developing a library, whether physical line for delivering the best service to users. As a librarian, must a service rendered must always be the best. Users of various types of coatings, from children until adult that have a good career. Therefore, librarians need to be wise in dealing with consumers, especially children.

Apart from the relationship between librarians and users, librarians should ensure the collections of the library meet the needs of users. Among the collection in the library including books and e-books, magazines, images, music and video, maps, newspapers, computer games and other digital sources. Furthermore, as the people of the world fingertips of today's technological world, librarians should be smarter to attract users to come to the library.

Librarians are very helpful in promoting development in Malaysia by providing information, disseminate information, organize, and manage them effectively in order to achieve a knowledgeable society.

Besides that, as an information officer, they identify, analyze and assess the appropriateness and value of information related to the organization. Information Officer acts as organizers of all kinds of information. They disseminate information that is important to the organization. Usually Information Officer works as a generator of information for disseminating information within the organization.
They develop an information strategy planning, procurement, provision and management to meet the needs of present and future and the known around. In addition, the Information Officer is also tasked to maintain security in access and quality of information given or received. They also act as auditor in the audit information from time to time. An Information Officer, they should be computer literate because most of the times they will work with digital resources, such as content management systems (CMS), an electronic document and records management system (EDRMS) and other databases.

Furthermore, they are tasked with developing and managing electronic resources that are used, for example, online database and management system. Normally, information officer normally can not only work in the library, but they can work outside of the library field such as the company of PETRONAS, information center and so in need of information. Practically all companies and organizations need to be a hub of information officer.

*Information System Management*

Graduates from course Information System Management will have the opportunity to work as Information Systems Executives, Information Specialists, Information Managers, Automation Officers, Information Officers, Director of Information Centers, Information Consultants, and IT Librarians. Graduates in these courses do not need to worry to find a job.

This is because in Era 2000 technologies were increase time to time. So that, they have many opportunities to be employed. Organization or company nowadays, use system to launch their activity in processing product or service to consumer. It is evident, there are many online business, website, blog and so on.

In other word, Information system management program created graduate high quality in programming system. They can work in organization because they can create system to hold off organization or company. They are given exposure in study about technicians, programmers and also database administrators reporting to them. As an Information system manager, they need to plan, develop and implement their skill in company or organization to control all activity that related to information system such as hardware and software to mentoring and training new ICT support staff. Information system manager always check and update the technologies to their company.
Almost all graduate in Information system management work as Information system managers. They create a good system for their company. Normally all companies need information system to record and coding about data company. They also implementation of technology within an organization and direct the work of systems and business analysts, developers, support specialists and other computer-related workers.

**Record Management**

Graduates of the course Record Management program will have the opportunity to work as Archivists, Automation Archivists, Photograph and Film Archivists, Records Managers, Manuscripts Curators, Document Controller, Document Analyst, and Record Consultant.

Almost all companies have their own record center. Record managers manage and preserve the record, document and other material that gives value for individual, organization and nation. The collections of record is not only focus on physical document, it also can be presented in an electronic version. Betwixt, e-books, photographs, maps, audio, film and digital files.

As an archivist, you need to organize your record properly, in order to decrease the damage to your records. You need to be intelligent in arranging those records. These is because in archive not only preserve, they also need to do conservation. The main activities archivists are to acquire, manage and maintain documents and other materials that have historical importance for individuals, organizations and nations. So that, an archivist has become an important career to our nation in the preservation of valuable records.

**Resources Center Management**

Graduates of the Resources Center Management program will have the opportunity to work as Education Technologists, Academic Librarians, Product Database Managers, Research Consultants, Media Executives, School Librarians, and Media Specialist. This program focuses on libraries. Normally, all government or non-government school have their own library to manage. So that, graduated students from resources center management have many opportunities to enter in this job.
Besides working as a school librarian, student graduates from resources center management have many working areas that they can find, such as product database managers. They need to conduct all activity in organization like defining document that is relevant to certification, configuration, data and data management. They also need to ensure that removed from organization are fully filled requirements and to maintain their production have the technical, data, regulatory, and company services that removed from organization are full filled requirements. Faculty of Information Management produce students who are dedicated in serving their works. Faculty of Information Management helps Malaysia to achieve this status by enhancing the information management skills. All program under the auspices of the Faculty of Information Management have their own advantages in under the auspices of the Faculty of Information Management helps Malaysia to be a developed country of science. FROM SECOND-RATE TO FIRST-RATE!

You told me that I’m weak,
You told me that I’m fragile,
I know myself kinda liable to break,
Until I could be anyone second-rate,
And,
I could be anyone people who blamed.

Those unpleasant words are haunting me,
It’s undeniable of what people around me say was came from what they see me externally,
You don’t know me, so you can’t judging me without knowing overall me,
Of course you don’t know such words and wrong interpretations are aching, sore, and killing me inside.

So I make decision to change my life,
To be a neophyte, greenhorn and fresh new leaf,
I will not admit defeat, I will not be a failure,
I will be a steadfast, a superlative and an admirable.

Look now! I’m shine bright and I’m on their list!
Being their first-rate and leaving beautifully remarkable in their mind!

A GOOD FRIEND (WE CAN BE WHATEVER)

The ties we’re having, we’re still counting the days,
Looking forward for the future, ahead of us,
Wishing the best of us,
Yet we’re still wondering if we can make it far altogether?

A good friend, they would be a very good listener,
A good friend, they would speak out if it isn’t right,
A good friend, they won’t be forgetting you,
A good friend, they won’t be upset even days of days of disconnection,
A good friend, they won’t betray you and a good friend they are, they would love you unconditionally,

We can be the running horses at prairie,
We can be the cloud and the airplane,
We can be the hair and the comb,
We can be the car and the wheels,
We can be the body and the wing,

As long as we can make it right, make it worth,
It’d be us against the rough of the world,
We can be the root and the leaf,
We can be the night and the star,
We can be the beach and the wave,
We can be the underwater and submariner,
We can be the one and the other half,

There’ll be crisis,
There’ll be countless hardship, I’m sure,
We’re gonna start turn away from one another,
We’re gonna go on our own way,
But if we’re holding the ties so tight,
It won’t be unfasten so quickly,

A good friend, they would be a very good listener,
A good friend, they would speak out if it isn’t right,
A good friend, they won’t be forgetting you,
A good friend, they won’t be upset even days of days of disconnection,
A good friend, they won’t betray you and a good friend they are, they would love you unconditionally,

We can be the kayak and the bow,
We can be the eyes and ears,
We can be the wall and the paint,
We can be the engine and the throttle,
As long as we can make it right, make it worth together,
   It’d be us against the rough of the world,

   We can be the track and the field,
   We can be the sun and the day,
   We can be the petal and the flower,
   We can be the door and the lock,
   We can be the one and other half,

A good friend, they would be a very good listener,
A good friend, they would speak out if it isn’t right,
A good friend, they won’t be forgetting you,
A good friend, they won’t be upset even days of days of disconnection,
A good friend, they won’t betray you and a good friend they are, they would love you unconditionally,
Kita semua sama,
Kerjalah melangit,
Berkawanlah beribu,
Bergajilah berjuta-juta sekalipun,
Kita sebenarnya sama,
Tiada siapa yang lebih bagus dari sesiapa,
Boleh enjoy berapa ramai pun,
Tapi at the end,
Dalam berbillion penduduk di dalam dunia ini,
Yang betul-betul nak hidup dengan kita sampai akhirat,
Ada SATU orang sahaja,
Bukan beribu,
Bukan berjuta-juta,
Bukan juga berbillion,
Cuma SATU...

- Memberikan sepenuh perhatian kepada gurunya.
- Mendiamkan diri sewaktu guru sedang menyampaikan pelajaran.
- Menunjukkan minat terhadap apa yang disampaikan oleh guru.
- Tidak meninggikan suara terhadap guru, sebaliknya memadailah berkata dengan suara yang boleh didengar.
- Menghormati guru di hadapan dan belakangnya.
- Menutup kelemahan guru agar tidak didedahkan tanpa keperluan.
- Mendoakan kebaikan baginya.
Menurut Syeikh Salim bin Eid al-Hilali dalam kitabnya *Manhajul Anbiya’ Fi Tazkiyatin Nufus*, proses tazkiyah ini akan berlaku dengan syarat kita bertakwa, yang hanya akan dicapai dengan langkah-langkah berikut:

*Al-Musyararah* :
Ertinya membuat perjanjian, seperti seorang usahawan pasti akan menandatangani perjanjian.

*Al-Muraqabah* :
Maksudnya selalu mengawasi diri. Apabila seseorang telah mengikat perjanjian, harus baginya merasakan keperluan menjaga dan mengawasi perjanjianinya agar tidak dilanggar.

*Al-Mujahadah* :
maksudnya bersungguh-sungguh dalam melakukan amalan.

*Al-Taslim* :
Ertinya menerima segala ketetapan Allah.

As more information becomes available in digital formats, it can be a little frustrating to not be able to simply bookmark or save any documents printed on ordinary paper. There are plenty of articles, recipes, letters, contracts, etc. that would be much more convenient if they were saved on a flash drive, which is where the NoteMark would come in handy. With a laser-projected sight and built-in camera that captures documents as high-definition photos, the ballpoint pen/scanner could be an invaluable tool for quickly digitizing and storing paper documents.

**Specifications:**

Casing Material: Anodized Aluminum in various colors

Storage Capacity:

- 1000 Notemark image files, Or
- 1000 Voice-memo audio files in 1min length
Kiribati is the world’s only country to fall within all four hemispheres. Because the nation of Kiribati is comprised of numerous small islands spread throughout the Pacific Ocean, it just so happens to have territory located in all of the earth’s four hemispheres (Northern, Southern, Eastern, and Western).

Ethiopia still follows a traditional calendar that is seven years behind the rest of the world. Because of the strong presence of the Coptic Orthodox Church in the country, the traditional calendar of that church is still influential in Ethiopia. The calendar came about in the 16th century when most of Christianity changed the date Jesus is believed to have been born on, but those in Ethiopia decided to maintain the original date. Because of the time discrepancy, Ethiopia held celebrations for the new millennium in 2007, seven years after the rest of the world.
The most isolated tree in the world was located in the middle of the Sahara Desert in Niger. Known as the Tree of Ténéré (or L’Arbre du Ténéré to locals, as Niger’s official language is French), this small acacia tree was separated from any other trees by a distance of 250 miles. The tree was used for years as a landmark for anyone traveling through the desert until it was knocked down (allegedly) by a drunk driver in 1973. Because of course, the driver just had to hit the only thing around for miles. 

San Marino has the highest amount of automobiles per people in the world. A 2010 study found that the tiny nation of San Marino, which is located entirely within Italy, had 1,139.06 cars per 1,000 people — the only nation in the study, in fact, that had more cars than citizens.

Greenland is unable to join FIFA because the ground there can’t grow a grass field. Because of the country’s climate, the ground is generally covered in ice or permafrost, making it nearly impossible to grow enough grass to form a regulation-size soccer field. Most games are simply played on dirt/gravel.

Crazy Facts Around The World

Mencari ‘Nur’

Bolehkah dosaku kembali putih,
   Seperti sehelai kain putih,
Bolehkah hatiku kembali merah,
   Seperti warna darah,
Masihkah ada orang yang boleh membantu?

Ya Allah, Sesungguhnya aku insan yang hina,
   Tidak terlepas dari membuat dosa,
Ampunilah hambaMu ini,
Bantulah aku menuju jalan yang diredhaiMu,
   Ya Allah, bantulah hambaMu ini!

Wahai sahabat, pegang erat tanganku untuk kembali ke jalan Allah,
   Jangan pernah lepaskan tanganku ini,
Jangan pernah penat untuk membantu diriku,
   Aku terlalu memerlukan sokonganmu,
Sahabatku, aku terlalu menyayangimu.

Nukilan:
   Saudari Ainul Mawaddah
   23 November 2015
   Puncak Perdana
Woke up in the morning, reach out for the phone under the pillow,
It's 9:30 on the dot,
The sun shone through the curtains,
Lighten up the room,
Did you take moment to cherish your breathing at the time?
Did you take a moment to breathe and be grateful for another breath you got?

The reality caught you up again,
The problems, the fears, the nightmares are chasing you down.
You keep on running and running 'til it’s gone.

Do you ever just wanna walk to the park and just sit?
Just sit and that's where you gonna take a moment to breathe again.
Do you ever just wanna stand by the pier, stare over the crystal blue ocean and take moment to breathe?
Just be there and breathe.

The world is swallowing you down
All the hopes, dreams and desires are just nothing but a word,
Have you ever lie on the floor in your pool of tears?  
Did you drowned in that?  
Would you like to take a moment to breathe?  
Just take a moment to breathe so you can be alive again to survive another day.

FIM Communication: Evolution of FIM

FIM COMMUNICATION invites contributors to submit manuscripts for publication in the FIM COMMUNICATION (December 2014 publication). The scopes of the journal include, but not limited to, the areas in Information Management.

TYPE OF CONTRIBUTIONS

FIM COMMUNICATION publishes original articles on all aspects of Information Management. As FIM COMMUNICATION is intended to be a semi academic/less formal publication, contributors are encouraged to share their experiences, personal views and thought. FIM COMMUNICATION also publishes creative writing such as poems, short stories etc.

AUTHOR GUIDELINES

1. Content

We prefer FIM COMMUNICATION articles that are 750 - 1500 words in. They should be in English or Bahasa Melayu.

Articles should not have been published previously in another magazine or journal, nor been available in a final version on a publicly available web site.

2. Matters of style

- Text should be in Microsoft Word or rtf format.
- Images may be in gif, or jpeg formats. Images can be handled several ways — as in-lines or as linked files. They normally should be no more than 700 pixels in width.
- Hyperlinks to external sources are encouraged. URLs should be spelled out rather than embedded as links, either following the appropriate name/text or, if preferred, within the References section at the end of the file.
- The font type required is Arial, 11pt.

3. Mechanics of submission

While we often receive completed manuscripts, we would prefer that you contact the editors at tintafpm1@gmail.com before you finish writing so that we can determine whether the topic, style, and approach are appropriate for FIM COMMUNICATION. We accept only electronic submissions. For any correspondence, keep in mind that the tintaeditor@gmail.com email address receives a large amount of spam and email to that address is filtered. Prepare your message with a proper subject line, body and signature block.

- Articles can be sent to tintafpm1@gmail.com as email attachments. Please include “FIM COMMUNICATION Article Submission” in the message subject line.

Each author will be asked to submit a brief (50 - 100 word) biographical sketch along with his or her manuscript. Please contact the editors for details upon acceptance of your article.

4. Editorial Process

- Upon acceptance, articles are put on the magazine’s production schedule for two months that is mutually acceptable to the authors and editors.
- FIM COMMUNICATION editors will read your submission and return it with suggested changes or comments.
- After the authors and editors have agreed on a final draft, the revised text will be formatted in doc or pdf by FIM COMMUNICATION staff.
- Authors will have a specified length of time to request final corrections or minor changes prior to the release of the magazine to the public.
- Once the issue has been released, only vital corrections or changes will be made to the file. These changes will be noted and dated at the end of the file.

5. Rights

All rights reside with the author(s). We will identify the author(s) as the copyright holder(s) unless specifically directed otherwise. FIM COMMUNICATION requires non-exclusive permission to disseminate and make the material available. Author(s) are responsible for clearing any rights prior to submitting materials to us. Should the author(s) decide to publish an article elsewhere at some future date, we ask the author(s) to notify us as a courtesy, and if possible, to include language indicating that the material has previously appeared in FIM COMMUNICATION and in which issue.
