Assalamualaikum WBT,

**HOWS IT’S STARTED...??**

At the beginning of the task given to us for the subject of IML601: Publication & Production of Information Materials, I realize one critical need in the successful of the publication which is “collaboration”. Without collaboration, we were unable to achieve what we have working on before.

Back to our theme of FIM: Thrive for Information, I believe that information is a key to success. So, what do we expect our readers to know through “Thrive for Information” publication was that, it is specifically outline the information as a baseline in our life where each of the individual need it in a critical thinking, problem solving, decision making, knowing how to learn, reasoning, and the ability to manage resources, work productively with others, acquire and evaluate information effectively, organize and maintain information, interpret and communicate information, and work with a variety of technologies.

Lastly, I would like to take an opportunity to praise to Allah SWT, as without His blessing, we were unable to finish the entire task in the time being. Alhamdulillah, I am glad to have a great cooperation from all the magazine team members, which spend their times and effort in order to helps in finishing the contents of the magazine. What’s app, Twitter, Facebook, WeChat is a social media that is very popular nowadays. Various different parties have implemented various functions and the tools used by the media. Among the tools that have been used by the social networks, virtual reality, such as Facebook, creating a virtual contact, like sharing text messages, sounds like sending messages via voice record and audio visual like creating a conference, and etc. This will make it easier for users to identify, strengthen, and connect the relationship and so on. This can attract users to use these cutting-edge applications with racing chase progress. Social media can be emerging as the most important tool in people’s lives. Various types of communication have created a very complete with the ability to share information with other users, connecting individuals and communities. No other media has become so popular in such a short period of time as social media. The interpersonal communication is having the important communication tools to attract users.

In interpersonal communication, the tools social media has become important communication tools for self-expression and self-presentation. Whatever we think it is important that we communicate to others. Furthermore, it allows us to contact friends who are far from our homes like in other countries whether invited to birthday parties, weddings, outings, dinners and shopping. The desire of pleasure is leading to peer pressure. Want to send a message, upload photos, and check out any time after making a comment of youth on social media addict. If a day is not going to overlook social media makes them restless.
In addition, social media has created for social interaction and it serves its purpose fully. It allows users to communicate more quickly, more cheaply and communicates anytime and anywhere. It features very simple that seems to be useful to be a problem in interpersonal communication. Nowadays, people are virtually connected all the time with no time limit. People prefer a status update on a social media site regardless of the time. But, people are being too obsessed on information in cyberspace that led to the 'no communication' in the real world. Most internet users nowadays, spend most of their time absorbed in their virtual communications until they do not find time to talk to them among themselves.

Communications group at a time, they prefer to communicate with friends, contact parents regularly through real conversations and voice calls. But today, young people cannot live without broadband connectivity. That's why nowadays many restaurants, supermarket, and shopping mall so much to provide wifi for free. But, there are also some shops that want to maintain a relationship with the old way by not providing but even put words like “No WIFI, talk each other! Call your mom pretend its 1993!” this is a good effort to strengthen ties significantly. Through social media, something that is shared among the partners in the inner circle, the information is getting exposed immediately after the upload to social networking sites.

The society in the future, with the use of social media are increasingly widespread and growing, new media to get the reader to the information provided are more likely to post unverified information especially on issues of serious academic. It is very difficult for the users to rely on unverified information like that. As students especially, they need authentic information especially to make academic work, they should have assurance and evidence to use such information. Not only that, do not easily submit false disclosures to others if uncertain validity.

Social aspects seem more reasonable to the development of more advanced economies, although in the past the steel industry disappeared, did not get any worse. Current population will become more sophisticated with the use of modern equipment in their neighborhood. They will be reminded again about their ordinary lives as they for decades. Lifetime ago, that more manual to do some work and take time to prepare a work. But something great will happen and will be raised as well as the name of national and global attention as a great versatility and sophisticated city.
In the current era, the more the social media craze. Regardless of age, from infancy they have already had a very powerful gadget. Unfortunately what I would call a social craze appears to be a phenomenon that occurs again not one that is the characteristic only of our current times. Immodesty, cyber crime and illicit behavior were hit by rapid hit humanity since the beginning of our history has not known for its gadgets. But in the current era crimes and incidents likes the hot fried bananas.

Modernity is no longer offers any kind of real relationship with the mad person. We have shifted rapidly from a high information society to a knowledge society, where capital is the most voluminous been located in the human ability to think and to decide, in what is known as intellectual capital or intellectual thinking. According to Maria Pinto in 2007, information literacy that can be involves the knowledge of sources and it will being capable of handling them from internalizing the skills of the tracking down, locating, obtaining and accessing information. Information is a resource that every day-by-day becoming increasingly and very important and uncontrollably abundant. That is show the new pattern of the information and new madness of social media can give a positive and negative impact to users and others.

In a nutshell, to develop a great source of information, in terms of education, communication and of course entertainment, social media will be a huge challenge when it comes to many aspects of our personal and social life as a consumer. Social media is an impact to create a new form of structure and make it easier for users to communicate and find information on the fingertips. However, the social order that has established social networks would also weaken the link between personal.
HAKIKAT BELAJAR

Kita belajar kesucian dari cahaya
Yang setalu bersinar lurus menyibukkan gelap
Kita belajar kesetiaan dari matahari
Yang setalu menepati janji terbit di pagi hari
Kita belajar keadan jiwa dari keluan langit
Yang senantiya berbandan dengan warna-warnanya
Arakan mega atau kemilau bintang-gemintangnya

Kita belajar kearifan dari kedalaman samudra
Yang menyimpan untaian mutiara dan keindahan
Kerajaan batu karang di dasarnya
Kita belajar kerendah hatian dari gerak air
Yang mengalir ke tempat yang lebih rendah
Kita belajar dari titik-titik hujan
Menghapus kemarau panjang
Kita belajar dari kejukan embun pagi
Menyegarkan daun-daun
Kita belajar dari kidung-kidung burung
Dan gemericik air bening
Di sela-sela baku pegunungan
Kita belajar dari bunga-bunga pesta warna
Yang setalu mengirimkan aroma dan keindahannya
Kita belajar dari manik-manik batu permata
Yang meski terendam lumpur
Tetap menampakkan cahayanya

Ya...
Kita juga belajar keramah tamahan dari semut
Yang selalu mengucapkan salam
damen saat jumpa sahabatnya
Serta kegotong royongan mereka dalam bekerja
Kita juga belajar dari persaudaraan kekali
Antara laut dan pantainya antara pohon dengan tanah

Kita juga belajar dari kearifan alam semesta
Yang nampak selalu diam
Di dalam kediamannya selalu bersujud kepada-Nya
Wahai jiwa..
Betapa dunia ini selalu berkembang dan terbentang jadi guru

Cinta terakhirku

Lamunan cinta masih berbisu
Membuat diri ini sukarn melupakan
Aduh! Sakitnya dada
Menanggung kerinduan hanya padamu
Tersenyum bagaikan orang gila
Aku memikirkan tentangmu
Oh, indahnya cinta
Menghalau segala usikan di jiwa
Hanya tinggal erti bahagia
Bila kau dan aku sentiasa bersama
Kau cinta terakhirku
Tiada lagi bisa mengganti
Karna engkau telah menawan hati
Juga kau pagari
Dengan keikhlasan hati
Tiada siapa mampu robahi
Cintaku dan dirimu lagi
Doa jangan lupa kau beri
Pada si dia Pencipta hati
Agar kita selalu mensyukuri
Erti sebuah cinta hakiki

Bahagia dalam Duka

Sahabat,
Ku nukilkan karyaku ini hanya untukmu
Karna dirimu aku sayangi
Tanpamu, aku begitu sunyi
Detik yang kita lalui bersama amat ku hargai
Kita makan dengan penuh berselera bersama
Kita keluar bersama, bersarak ceria
Ketika itu, hati ini benar-benar bahagia
Namun satu hari, engkau menjauh dengan ku
Membawa seribu soalan di dadaku
Memikirkan apa salahku dengan mu
Tanpa khabar, aku menangis
Memikirkan keadaanmu yang jauh bersamaku
Adakah hatimu sudah berubah
Bagaimana pula dengan hubungan kita?
Aku tertanya –tanya
Saat ku bersamamu begitu berharga
Namun kini kau biarkan aku derita
Menanggung arus bahagia dalam duka
Tidak ku minta bintang menjelma
Hanya ku perlu kita bersama
Menjalani hari- hari yang bakal tiba
Dan meraih kebahagiaan bersama

Karya

Tiada Terganti

Air mata menitis lagi
Bila diri mengenangkanmu
Rabak sanubari, ku merinduimu
Hanya doa ku titipkan setiap detik dan waktu
Agar dirimu bahagia disitu
Tanpa menempah dirimu pergi
Tanpa bersedia aku bersendiri
Mungkin takdirNya yang sedang ku jalani
Hidup sepi tanpamu disini
Hanya kamu menawan hati
Hanya kamu sering memahami
Kamu juga tidak lelah menasihati
Diri ini yang sering melupai
Kasihmu ku junjung
Pesanmu ku tanam di hati
Takkan lagi ku menangisi
Pemergianmu kali ini
Wahai bondaku yang ku sayangi
Dikaulah segala-gala penyeri
Dikau juga tidak terganti
Walau hancur dunia

Baunya seharum
kasturi
Kepenatan masih terasa. Sejak ku menjejakkkan kaki ke kampus ini, baru saat ini, aku dapat membaringkan sekujuh tubuhku ini di dalam bilik yang selesa dan bersih. Ya, aku pelajar baru disini, pelajar yang baru sahaja mendaftarkan diri sebagai pelajar disini.

Sepena manapun aku menjalani program sepanjang hari di fakulti, aku harus kuatkan diri untuk kemaskan barang-barang aku yang menunggu giliran untuk dikemaskan dan diletak di tempat yang sesuai. Aku mencapai bagasi yang berdekatan, mengeluarkan isinya. Sekarang, aku perlu melipat semuanya, untuk disusun ke dalam almari. Aku bermonolog sendirian.

Allahu akhbar! Aku berasa terbit satu perasaan disekelilingku, perasaan marah marah yang teramat sangat. Dengan keadaanku yang kezurkan, maka aku tidak dapat merasainya dengan sempurna seperti sebelumnya. Saat ini, hanya perasaan dan perbuatan "makhluk" itu saja yang aku dapat rasa. Aku harus bertindak sesuatu, agar makhluk itu tidak lagi menunjukkan "belang" nya.

Dengan penuh kesabaran, aku berkata: "Saya baru sahaja datang ke sini, dan ini adalah bilik saya, saya tahu awak wujud dan saya tak mahu awak menganggu sesiapa sahaja disini, saya datang sini untuk belajar, kita sama-sama hidup, jangan mengganggu antara satu sama lain. Boleh?"
Astaghfirullaahazim! Sekali lagi suara pintu almari itu terdengar, kali ini, secara menutup. Ianya
seolah kedua-dua pintu almari ditangkap dengan sekuat hati oleh seseorang. Suara itu mengejut-
kan rakan sebilikku yang baru sahaja selesai solat magrib di ruang tamu. Lalu pintu bilik di-
ketuk, dia bertanya keadaan ku, aku diam seribu bahasa namun ku tetap pendamkan rasa ini ker-
na tidak mahu rakan-rakan yang lain takut atau gelisah untuk tinggal di bilik ini sepanjang semes-
ter ini. Lalu tombol pintu dipulas untuk menutup kembali pintu bilik. Aku mendekati almari itu,
almari yang membuatku aku terkejut sebanyak dua kali. Aku membukanya perlahan-
lahandan..... masyaAllah, bau apaakah ini? Bau yang sangat wangi, wangi menusuk ke kal-
bu, seolah bau kasturi. Begitu nyaman sekali bau itu.

Aku tersedar dari lamun.Aku cuba mengucap. Aku akan cuba untuk berfikir logik wa-
laupun aku sudah lali dan “tahu” perkara yang aneh sebeline. Aku tidak membuat andaian sendi-
ri, malah keesokan harinya, aku cuba bertanya kepada rakan sebilikku, “adakah bau harum itu da-
tangnya dari minyak wangi awak?” Dengan wajah kehairanan, dia menjawab, “ Tidak”! habis
siapa lagi? Hanya kita berdua yang tinggal sebilik. Ku simpan peristiwa itu sebagai misteri di
bilik tingkat 5, blok 3 itu.

Bau yang seindah kasturi itu, akan ku ingat selamanya....
