ACKNOWLEDGEMENT

Writing the thesis has had big impact on my partner and I. First of all, Alhamdulillah with the grace and bless of Allah S.W.T. We manage to complete this study. I owe my sincere gratitude to my supervisor, Puan Nur Faezah Shahrein for our valuable guidance. Thank you for your excellent cooperation and all the opportunities we were given to conduct research. You definitely provided us with the tools that we needed to choose the right direction and successfully complete my thesis. Her leadership and dedication for guidance, patience, advice, encouragement and trust she had allowing us to work in our way. I would like to reflect on the people who have supported and helped us so much throughout this period.

We would also like to thank to other partnership team for their wonderful collaboration. They supported us greatly and were willing to help us. I am also grateful to Universiti Teknologi Mara especially UITM Alor Gajah Melaka lecturers and staffs for their help, facilities, privileges, and support given to us during our studies.

We would like to convey our humble gratitude to all the people in Senawang, Negeri Sembilan who took time and trusted us in answering the questions in the survey questionnaires.

We would also like to dedicate this thesis to our family especially our parent for their wise counsel and sympathetic ear. They have been our source of support morality and financially. We hope them proud of us.

Finally, special thanks to all my friends especially when we did in partnership. We were able to support each other by deliberating over our problems and findings. We truly enjoyed the study.
ABSTRACT

STUDY ON THE DEMAND FOR FAMILY TAKAFUL PRODUCT
IN SENAWANG, NEGERI SEMBILAN

It was reported that Malaysia has experienced a low penetration rate for the Family Takaful business despite the many forms of incentives provided by the Government. The available literature that focuses on life assurance and related research on Family Takaful is rather scarce. In view of this, it must be mentioned that, this particular study is significant because it provides a critical insight and better understanding of the critical factors that actually determine the Family Takaful demand in Senawang, Negeri Sembilan. Thus, the main objective of this study is to determine the critical factors for Family Takaful demand in Senawang, Negeri Sembilan. The study involves a survey using structured questionnaires to solicit responses from people who have joined Family Takaful plans in selected leading Takaful companies. Data analysis involves the use of regression analysis. From a set of factors that contributed to the Family Takaful demand in this study, the result of regression analysis showed that product and services have significant relationship with family takaful demand.
