ACKNOWLEDGEMENT

Alhamdulillah, with the grace and blessings of the ALLAH S.W.T, we manage to complete this research with HIS willing. Completing this research was a challenging project for us. Fortunately we had the help of many parties that made this project less difficult. Our supervisor and co-supervisor, Madam Nurliyana Bt Mohd Shazali and Miss Ekmil Krisnawati Erlen Joni deserves a special mention here. Their support made us work harder and for that we will always be grateful. They kept us motivated during all those moments. We thank them from the bottom of our heart for being there in our moments of need.

We would also like to thank all of the lecturers who had taught us during our studies at Universiti Teknologi MARA Kampus Bandaraya Melaka. We learn a valuable lesson from them. Our appreciation also goes to Jabatan Kerja Raya Melaka Tengah for giving us direction and truly grateful for their cooperation.

Last but not least, we also like to express our gratitude to thank our friend and family on supporting and encourage us to complete this research study, without their dedication, this research study would not have materialized.

Thank you very much.

ABSTRACT

In this study, the researchers are focus on the reward system and job performance at Jabatan Kerja Raya Melaka Tengah. The purpose of the study is to examine whether there is any relationship between reward system and job performance among employees’ at Jabatan Kerja Raya Melaka Tengah and to identify which element of reward system that influence most towards job performance at Jabatan Kerja Raya Melaka Tengah. This research emphasize on the purpose of conducting by examining several element that lead to the job performance among employees’. In this research it focus on three element of reward system which are transparency of the reward system, fairness of the reward system and employees’ preference on the reward system. For this study, the researchers use the purposive sampling and from 150 populations the sampling is 108 respondents. In this study several methods used like reliability test, normality test, the Spearman’s Rank Correlation and also multiple regression analysis. The findings shows that all three elements have positive relationship and can influence employees’ job performance. It is identified and determined that the transparency of reward system practices is the most important element of reward system practices that affect JKR Melaka Tengah employee’s job performance.
