Acknowledgement

Alhamdulillah, our highly grateful to Allah S.W.T for giving us strength and consent for us to complete this research. We also would like to express our compliments to Rasullullah S.A.W.

We have taken efforts in completing this research. However, it would not have been possible without the kind support and help of many individuals. We would like to extend my sincere thanks to all of them.

We are highly indebted to Mr Mohd Zulhilmi b Mohd Yunus for the encouragements and constant supervision as well as for providing necessary information regarding the project.

We wish to avail ourselves of this opportunity, express a sense of gratitude and love to our parents for their encouragement, motivation, financial support, and for everything. The research project is nothing without them who contribute for this research.

Last but not least, our thanks and appreciations also go to our friends and classmates as they give useful information and knowledge regarding our applied research project on the deployment of Alor Gajah Municipal Council's Expenditure. Our thanks also go to people who rendered their help with their abilities whether directly or even indirectly during the period in completing this research proposal.

Wassalam.

CHAPTER 1

INTRODUCTION

1.0 Introduction

In general, local government is part of the three tier government structure which is Federal government, State government and Local government. Local government in Malaysia is essentially an urban phenomenon, which comes to say that the existence and functions of local government should be seen as an essential system of administration to govern modern areas for the society. Besides, local government has the responsibility for numerous services related to housing, water supply, waste management, taxation, land assessment and other matters (Chin Abdullah, 2008). Therefore, local government has to allocate their expenditure for each service that provided to the public effectively and efficiently. It is important for the local government to have capability to manage their expenditure in order to strengthen economic growth through effective distribution of resources.

In Malaysia, there are 141 number of local government. In which, each local government will have autonomy to govern their own areas. Thus, the researchers want to choose local government in Alor Gajah as a medium to become their research place. The researchers choose Municipal Council in Alor Gajah (MPAG) as it is one of the local government in Malaysia. This research has been carried out in order to investigate the views of to what extent the local authorities in Municipal Council in Alor Gajah (MPAG) distribute their expenditure. The researchers want to look on how allocation of expenditure had been implemented in MPAG. Basically, local government operates within a framework where it is political and economic subordinate to the Federal and
