ABSTRACT

The final project for the student of Diploma in Interior Architecture is a manifestation towards the student's knowledge about the world aspect on interior design that had been learn from basic to the final presentation on the proposed design. The project have been chosen for the final project is upgrading of Pangkor Village Beach Resort at Pulau Pasir Bogak 32300,Pulau Pangkor, Perak Darul Ridzuan.

The proposed of upgrading this project is to attract tourist from local and international . At the same time to promoted the tourism industries in our country especially in Pangkor Island. Besides, the target for upgrading this project is to upgrade the image and identity of the resort in order to show the attractiveness of the resort in Pangkor island. Its also to arrange the flow system in the interior of the building.

Student should also be focused on the characteristics of the environment, customer requirements and existing space before selecting the appropriate concepts and images for this project. At the same time it can attract the attention of visitors through the concepts and image that will be applied in space.

Before start to do work of designing, the students also need to do research work on existing space, such as issues and problems that coincided with objectives of the study.

CHAPTER 1.0 INTRODUCTION

1.1 INTRODUCTION

This final project report for subject INA 396, is a requirement for a Diploma In Interior Design, UITM. It is a comprehensive practice on the art of Interior Design, where at this stage the students have to prepare a design scheme based on analysis and observation on some issues or problems that they encounter while dealing with the design process.

This is a report for the final project, which is to upgrading of main building Pangkor Village Beach Resort for Unified Million Sdn Bhd at Pantai Pasir Bogak 32300, Pulau Pangkor Perak Darul Ridzuan. This report selected based on the important of resort as one of holidays destination that always gets intension especially at the area that carry out tourism industries such as Pulau Pangkor.

This renovation process is to beautify the existing image in every area in order to give an impact to customers and the resort itself. The facilities that provide in this resort also can be an attraction to customers to choice this resort as their holiday destination. The resort also provide the facilities like restaurant, entertainment area, water sport activity,outdoor activity, bicycle rental, and other. All this facilities are the specials element compared to others resort and this is the best for tourist attraction.
