LETTER OF SUBMISSION

7th December 2014

Ms. NOR HADALIZA BINTI ABD RAHMAN.

Department of Finance

School of Business and Management

UiTM Johor, Segamat, Johor

85000 Segamat

Johor,

Dear Ms ,

SUBMISSION OF PROJECT PAPER

Attached is the project paper titled “THE EMPIRICAL STUDY ON THE DETERMINANTS OF GOLD PRICE IN MALAYSIA” to fulfil the requirement as needed by the Faculty of Business Management, University Technology MARA.

Thank you.

Yours sincerely

.....

SITI NORANISAH BINTI MOHD SUNANIN

2012633184

Bachelor of Business Administration (Hons) Finance

ACKNOWLEDGEMENT

First and foremost, I would like to take this opportunity to express my gratitude and blessing of God by providing me mental and physical faculties as well as other positive attribute notably perseverance to complete my research paper. Special mention goes to my advisor, Puan Nor Hadaliza binti Abd Rahman for her guidance, supervision and support. Her positive comments and ideas are greatly assisting me in successful completion of this project paper.

I also take this opportunity to extend my appreciation to all those who have helped me directly and indirectly in completion of this research paper especially Puan Mawar Noor binti Abdullah that teaching me to use Data Stream. My big thanks too to all my friends for their understanding, kindness and moral support during the critical time and conditions undertook to complete this project paper. Last but not least, my deepest gratitude to my parents and family for their firm support invaluable assistance and sincere blessing.

Thank you.

ABSTRACT

This research determines the effects of macroeconomic variables to the price of gold in Malaysia. The variables to be considered are crude palm oil (CPO), exchange rate, inflation rate, silver price and rubber price in Malaysia. The secondary data are chosen in the research from 2002 until 2013. The research is using Multiple Linear Regression Model is used to determine the significant relationship between the dependent and independent variables. The result shows positive significant relationship by inflation rate (CPI) and silver price on the gold price. Whereas, the interest rate (BLR) and crude oil price shows negative significant relationship the price of gold.
