1. PREFACE

The Annotated Bibliography Perpustakaan Tun Abdul Razak UNIVERSITI TEKNOLOGI MARA SHAH ALAM is a list of library materials added into the collection of Perpustakaan Tun Abdul Razak in Shah Alam Campus. It will be published quarterly (4 issues a year). The listed materials are available in various formats obtained through the procurement process including donation.

Scope

The bibliography covers materials added into the library collection that published in Bahasa Malaysia, English, Arabic and Chinese. The materials such as books, government publications, annual reports, pamphlets and audio-video material.

Cataloguing and Classification

Follow the rules as below:

3. Classification scheme for Medical - National Library of Medicine Classification (NLM) 2017 edition
5. Subject headings - Medical Subject Headings (MeSH) 2017 edition
2. LIBRARY OF CONGRESS CLASSIFICATION SCHEME

The listed materials are arranged in accordance with the 'Library of Congress' starting from the A to Z alphabetically ordered. The classification scheme is as follows:

A  GENERAL WORKS
B  PHILOSOPHY, PSYCHOLOGY, RELIGION
C  HISTORY
D  GEOGRAPHY, ANTHROPOLOGY, RECREATION
E  SOCIAL SCIENCES
F  POLITICAL SCIENCE
G  LAW
H  EDUCATION
I  MUSIC AND BOOKS ON MUSIC
J  FINE ARTS
K  LANGUAGE AND LITERATURE
L  SCIENCE
M  AGRICULTURE
N  TECHNOLOGY
O  MILITARY SCIENCE
P  NAVAL SCIENCE
Q  MEDICINE
R  BIBLIOGRAPHY, LIBRARY SCIENCE, INFORMATION RESOURCES

If there are more than one material in the same classification scheme, the order will follow the order of the primary entry of a substance.
3. THE ABBREVIATIONS FOR LIBRARY LOCATION

5. ANNOTATED BIBLIOGRAPHY

5.1 GENERAL WORKS

1. AG5 .C55 1984
   The Children's Book of Questions and Answers.
   480 pages: illustrations; 27 cm.
   Includes index.
   ISBN 0706406206
   1. Children's encyclopedias and dictionaries. I. Addison, Anthony II. Title

Abstract
Life consists of asking questions. We start from the moment we learn to string words together and most of us go on asking them for the rest of our lives. Alas we don't always find the answers. This book presents a random array of questions most commonly asked by children and parents alike. When a question springs to mind, ferreting out the answer can be a difficult business. Often the answerer lies buried in a mass of information we don't need. This book goes straight to the heart of the matter and answers simple (and not so simple) Questions in a down-to-earth manner.

5.2 PHILOSOPHY, PSYCHOLOGY, RELIGION

2. BF145 .E97 1964
   Eysenck, H. J., 1916-
   SENSE AND NONSENSE IN PSYCHOLOGY/ H. J. Eysenck 1916-
   349 pages: illustrations; 18 cm Pelican books.
   Includes index.
   1. Psychical research 2. Personality. I. Title II. Series

Abstract
Hans Eysenck was one of the most important and influential psychologists of the 20th century, being at the time of his retirement the most-cited social scientist in the World. He was especially known for advocating “the highest degree of scientific rigour in the design of psychological experiments and [being] very critical of much loose thinking current at present under the guise of ‘psychology’”

3. BF1779.F4 O54 2008
   Ong, Hean-Tatt
   LANDSCAPE FENG SHUI SECRETS OF XUE XIN FU SNOW HEART / Hean-Tatt Ong
   iv, 216 pages: illustrations; 24 cm.
   ISBN 9789832816164
   1. Feng Shui. I. Tan, Raymond II. Title
Abstract
We are aware that many Feng Shui masters had came away from these classics, bewildered at their difficulties at penetrating the meanings of the ancient texts. One well known Feng Shui master rightly said that only a person with good knowledge of Chinese culture and history can hope to unravel the age old secrets. The thought had taken shape through a few years. It is the recognition that modern Feng Shui practitioners are unaware that it was Confucius who penned down the first Feng Shui texts! The modern Feng Shui practitioners are also unaware that the writers of the scattered ancient Feng Shui texts were actually commenting on what Confucius had written about Feng Shui.

4. BF408 .T43 1990
THEORIES OF CREATIVITY
276 pages; illustrations; 23 cm
Sage focus editions; v. 115.
ISBN 0803935447
1. Creative ability - Congresses. I. Runco, Mark A II. Albert, Robert S III. Title IV. Series
P1

Abstract
Creativity is the ability to produce original work and ideas. It starts with a creative person using a creative process to make a creative (new) product. Various studies have been carried out to obtain information about the behavior of creative individuals. These people are usually energetic and full of ideas. When confronted with a problem, they consider all of the different ways to solve it and tend to come up with unique solutions. Many models have been developed to explain creativity and the creative thinking process. Some of them are presented and discussed in this chapter. However, it should be mentioned that most of them include steps with the common themes of synthesis, analysis, and evaluation.

6. BF637.P76 B37 2010
Basco, Monica Ramirez
The procrastinator's guide to getting things done / Monica Ramirez Basco
xii, 178 p. ; 23 cm.
Includes index.
Abstract
Everyone waits till the last minute sometimes. But many procrastinators pay a significant price, from poor job performance to stress, financial problems, and relationship conflicts. Fortunately, just as anyone can endlessly delay, anyone can learn how to stop! Cognitive-behavioral therapy expert Monica Ramirez Basco shows exactly how in this motivating guide. Dr. Basco peppers the book with easy-to-relate-to examples from "recovering procrastinators"—including herself.

Abstract
Discussing (from various viewpoints) problems in theory building and theory evaluation, this book starts from the assumption that theories of development are particular ways of defining the concept of psychological development in terms of a specific conceptual framework, as well as in terms of a specific empirical range (nature of the explained phenomena, prototypical experiments and applications, etc.).

Abstract
The ten-step program detailed in this book will immediately improve your sense of well-being, and the three Daily Actions accompanying each step will help you thoroughly integrate the age reversal process into your life. Learn how to maintain a youthful mind, cultivate flexibility, strengthen your immune system, nourish your body, and much more. As you begin to reverse your biological age, you will find yourself tapping into your inner reservoirs of unlimited energy, creativity, and vitality.

P1

Abstract
Tafsir ini adalah kitab tafsir yang istimeva. Pertama, ia ditulis pada masa kini bukan masa sekian abad yang lalu. Sehingga ia merepresentasikan pandangan seorang mukmin atas dunia kita yang berada dalam era Godless Civilization. Kedua, ia ditulis dari balik terali besi penjara oleh seorang ulama mujahid-dakwah yang istiqamah sepanjang hayatnya membela kalimat tauhid sampai syahid di tiang gantungan penguasa zalim. Dan ketiga, kandungannya memadukan ketegaran akidah, fikrah, dan manhaj Islam dengan tampilan bahasa sastra yang indah dan menyenangkan. Mahasuci Allah Yang Mahatinggi. (Muhammad Ihsan Tanjung)

1. Qur'an and science. I. Title
P1

Abstract
Although the Qur'an is not a book of science, scientific words, sentences, and sometimes even paragraphs are found throughout its text and call out for understanding or explanation. I have always been fascinated by such instances and hoped that one day I would be able to unravel their mystery. My attempt to do so started about fourteen years ago when I began to study modern sciences and build my medical experience. I soon concluded that any attempt to gather the scientific facts mentioned in the Qur'an, relate them to each other, and then work out possible scientific meanings would require more than just the use of a computer.

**Abstract**
Agama Islam merupakan sebuah nidhom (aturan) universal yang mencakup seluruh segi kehidupan manusia. Sehingga ia tidak bisa dipisahkan darinegara dan tanah air atau pemerintah dan rakyat (ummat). Ia adalah moral(akhlaq) dan kekuatan (power), atau rahmat dan keadilan, ia adalah sebuah peradaban dan undang-undang, atau ilmu pengetahuan dan hukum. Ia adalah sebuah materi dan sumber alam atau usaha dan kekayaan, ia adalah jihad dan dakwah, atau pasukan tentara dan fikrah. Seperti juga ia adalah sebuah aqidah yang mantap dan ibadah yang benar. Semuanya sama, tidak bisa dipilih-pilih. (Prinsip Pertama)

THE SACRED JOURNEY, Being Pilgrimage to Makkah : The Traditions, Dogma and Islamic Ritual that govern the lives and the destiny of more than five hundred million who call themselves Muslim: one seventh of Mankind / Ahmad Kamal , 1914-
xx, 108 pages115 pages ; 22 cm.

1. Pilgrims and pilgrimages - Saudi Arabia--Mecca 2. Muslim pilgrims and pilgrimages. I. Title

P1, P2

Abstract

This English edition of The Sacred Journey presents the traditions, dogma, and Islamic ritual that govern the lives and destiny of one seventh of mankind. For the more than five million who call themselves Muslim, this is the official guide to the Sacred Journey, the pilgrimage to Mecca, and for non-Muslims, it is a gateway to another world, the first full-scale picture of Islam as it appears to the followers of the Prophet Muhammad. Not since the early eighteenth century has any writer brought to the Western reader so profound a knowledge of Islam.

Abstract

It defines the halal and haram in a scholarly manner that is accessible to the common man, dealing mainly with social issues. This book provides a comprehensive outline of specific everyday issues that Muslims face in practicing Islam in contemporary culture. The author gears discussion to modern-day dilemmas, drawing his conclusions about haram and halal from primary Islamic sources. Qaradawi is probably the foremost scholar of the Sunni Muslim world today. He is known for taking a balanced position on many religious issues pertaining to what is lawful and unlawful in Islam. (Making it easy for the average Muslim) He combines well the traditional knowledge of sharia that he obtained from al-Azhari with a contemporary understanding of the issues that Muslims face today.

Abstract
Politik adalah satu juzuk daripada mauduk pendakwahan yang bermatlamatkan kebahagiaan di dunia dan akhirat Kegiatan politik yang dipandu oleh wahyu dan berjalan di atas landasan etika boleh memberi implikasi murni kepada seluruh aspek kehidupan masyarakat. Kematangan berpolitik amat penting untuk dibangunkan dalam masyarakat dan kesedaran terhadap kepentingannya perlu sentiasa dipupuk kerana ia melibatkan proses pembentukan tamadun sesebuah negara Kematangan dalam berpolitik, bukan sahaja dari segi teori tetapi juga dari segi praktikalnya.

32. BR115.E3 T3 1969
Tawney, R.H
RELIGION AND THE RISE OF CAPITALISM : A HISTORICAL STUDY / R.H Tawney
336 pages; 17 cm.
Includes index.
Abstract
When this book first appeared, it was possible for a friendly reviewer, writing in a serious journal, to deprecate in all gravity the employment of the term 'Capitalism' in an historical work, as a political catch-word, betraying a sinister intention on the part of the misguided author. An innocent solecism of the kind would not, it is probable, occur so readily today. Obviously, the word 'Capitalism', like 'Feudalism' and 'Mercantilism', is open to misuse. Obviously, the time has now come when it is more important to determine the different species of Capitalism, and the successive phases of its growth, than to continue to labour the existence of the genus.

THOUGH the October revolution took place more than half a century ago, the study of religion in the Soviet Union has not received the attention it deserves. This has been due partly to the difficulty of obtaining reliable information, partly perhaps to the widespread belief that Russian Orthodoxy, corrupt under the tsars and discredited by their downfall, has been in irretrievable decline and did not merit serious study. To many Western observers, therefore, the obvious commitment to Christianity of individuals of the calibre of Boris Pasternak and Svetlana Allilueva, Stalin's daughter, has come as a surprise. The three books under discussion each contribute towards a better founded understanding of the religious situation in the Soviet Union since the communists seized power.

1. Counter-Reformation 2. Europe - History - 1517-1648. I. Title

P1, P2

**Abstract**

This book comprises nine key articles on the Counter-Reformation, introduced and contextualized for the student reader. They show that these reforms were more than a mere reaction against the Protestant challenge to Catholic doctrine and institutions, rather, they also constituted an internal renewal that transformed sixteenth- and seventeenth-century Catholic religious life in many complex ways. The collection surveys the conceptual and geographical range of work on the subject since 1945, and includes innovative articles on spirituality, the religious life of ordinary Catholics, the work of missionaries in the New World, and the changing role of women in Catholic culture. The essays are divided into two groups - "Definitions" and "Outcomes" - to illustrate the distinction between reform as a historical idea and as set of processes.
Abstract
Alexander Aitken was an ordinary soldier with an extraordinary mind. The student who enlisted in 1915 was a mathematical genius who could multiply nine-digit numbers in his head. He took a violin with him to Gallipoli (where field telephone wire substituted for an E-string) and practiced Bach on the Western Front. Aitken also loved poetry and knew the Aeneid and Paradise Lost by heart. His powers of memory were dazzling. When a vital roll-book was lost with the dead, he was able to dictate the full name, regimental number, next of kin and address of next of kin for every member of his former platoon—a total of fifty-six men. Everything he saw, he could remember. Aitken began to write about his experiences in 1917 as a wounded out-patient in Dunedin Hospital.

Abstract
Pompadour was devoted to Louis XV, and her contribution to the culture of the age was significant: she was an outstanding singer and actress, entertaining the King and the court in impressive stage productions, and was a longtime patron of the visual arts. She commissioned paintings by Boucher, Nattier, Van Loo, La Tour, and Pigalle, and she formed friendships with many of the philosophers and writers of the period, including Fontenelle, Crébillon, and Voltaire. In effect, she was France's minister of culture at a time when no such position existed. But she was loathed for her role in France's disastrous military losses, and was the victim of persistent court gossip and intrigues.

Abstract
The revolution which Burke feared is not of course identical with Marx's Communist revolution, but has much essential in common with it, and in some ways more in common with it than with the actual French Revolution of Burke's day. Burke would have been likely to see in the principles of the Communist revolution the emergence in even purer form of all that he most detested in the contemporary revolution whose progress he watched with horror and fascination in France, and sought with eloquence and skill to check in England. The spirit of total, radical innovation; the overthrow of all prescriptive rights; the confiscation of property; destruction of the Church, the
nobody, the family, tradition, veneration, the ancestors, the nation this is the catalogue of all that Burke dreaded in his darkest moments, and every item in it he would have discovered in Marxism. In the personality of Marx himself he would have seen incarnated that energy which he regarded as most dangerous to ordered society the energy of ability without property.

Abstract
This book is about the struggle in American public spaces, especially since September 11, 2001, to define and understand the rise and role of Islamic religious politics on the world stage. One term and concept in particular dominates this discussion: Islamism. References to Islamism and Islamists abound in the news media, on Capitol Hill, in think tanks, and in the American academy. Nonetheless, there seems to be little clarity, much less consensus, on the meaning or accuracy, of this widely deployed label.

50 YEARS OF MALAYSIA: FEDERALISM REVISITED
Singapore, 2014.
295 pages: illustrations; 23 cm.
ISBN 9789814561242

PI

Abstract
These essays are the product of a workshop discussion at the National University of Singapore in September 2013, organised by the Centre for Asian Legal Studies. The purpose of this gathering was to revisit the creation of the Malaysian Federation and how it has fared over the last fifty years from the different disciplinary perspectives of a group of scholars in law and political science. This chapter frames and reflects on federalism and its evolving nature in Malaysia after fifty years, and provides an introduction to the following chapters.

P1
Abstract
In the Southeast Asian region, various communities have been closely associated with the sea. Many have, over the years, acquired special memory and, sometimes, intimate knowledge of the sea. Even as much of this information and knowledge was passed from generation to generation, it provided maritime communities with a sense of identity and social cohesiveness as well as a sense of belonging. It was in this light that the papers in this volume set out to investigate the human association with the sea in Southeast Asia through the interrogation of memory and knowledge preserved through various genres including oral tradition, travellers' tales and diaries, official accounts as well as rituals.

Abstract
Written by an international team of expert contributors, this unique global and authoritative survey explores in full but accessible detail the basic constructs and concepts of modern sport and exercise psychology and their practical application. The book consists of 62 chapters, written by 144 contributors, deriving from 24 countries across the world. The chapters are arranged in nine cohesive sections: sport and exercise participants; the influence of environments on sport and exercise; motor skills; performance enhancement; building and leading teams; career, life skills and character development; health and well-being enhancement; clinical issues in sport psychology; and professional development and practice. Each chapter contains chapter summaries and objectives, learning aids, questions, exercises and references for further reading.

P4
Abstract
From the Olympic Games to community-level competitions, sports events can be complex and pose a particular set of managerial challenges. The Routledge Handbook of Sports Event Management surveys the management of sports events around the world of every size and scale, from small to mega-events, including one-off and recurring events, and single-sport and multi-sport events. The book adopts a unique stakeholder perspective, structured around the groups and individuals who have an interest in and co-create sports events, including organising committees, promoters, sport..
Abstract
Theory is an essential element in the development of any academic discipline and sport management is no exception. This is the first book to trace the intellectual contours of theory in sport management, and to explain, critique and celebrate the importance of sport management theory in academic research, teaching and learning, and in the development of professional practice. Written by a world-class team of international sport management scholars, each of whom has taken a leading role in developing a particular theory or framework for understanding sport management, the book covers the full span of contemporary issues, debates, themes and functional approaches, from corporate social responsibility and diversity to strategy, marketing and finance. Every chapter explores a key theoretical approach, including an overview of that theory, a discussion of the process of theory development and of how the theory has been employed in research, practice or teaching, and outlines directions for future research in that area.

Abstract
An increasingly important element of sport business is the management of the myriad of relationships in which sport entities are involved. It is the relationship management aspect of sport which is the unique focus of this book. Sport Public Relations and Communication discusses and reformulates the principles of public relations and communications by demonstrating how they can be successfully applied in practice within a sports context.

AN EMPIRICAL ANALYSIS OF CORPORATE LEGITIMACY THROUGH CORPORATE RESPONSIBILITY ACTIVITIES AMONG GOVERNMENT-LINKED COMPANIES (GLCS): THE INFLUENCE OF SPECIAL INTEREST GROUPS / Mahadir Ladisma @Awis
xviii, 326 pages: illustrations; 30 cm.

P1

Abstract
Corporate social responsibility (CSR) is one of the new corporate governance mantras that give some credence to stakeholder theory of corporations. Studies have examined the interest in, levels and effects of CSR investments on employees, customers, investors etc. However, CSR is an intermediate outcome. Corporate legitimacy is what corporations seek to achieve through CSR although this is not always explicit. This study examines the relationship between corporate responsibility and corporate legitimacy.

The research objectives are to identify the encompassing elements of risk management and ERM in theory and practice, to develop and test the CREERM conceptual framework and finally, to refine and validate the proposed CREERM framework. The research strategy begins with the review and observations of the established risk management frameworks in theory and published research as well as the ones in business practice. This involves the quantitative and qualitative content analysis of the academic literature and the Malaysian Top 100 company (by market capitalisation as at 28 June 2010) annual reports through a scoping study to determine the organisations’ risk management capabilities.

ISBN 9789671160275.

1. Labor unions - Malaysia. I. Dzulzalani Eden II. Institute of Labour Market Information and Analysis. III. Title P1, P2, P3

Abstract
This study aimed to assess the role of trade unions in the Malaysian industrial relations system. This study has identified many important results from the analysis carried out in the aspects of trade unions effectiveness and the perception of the trade union members on the implementation of the Trans-Pacific Partnership Agreement (TPPA). In addition, the study has also performed benchmarking exercise to determine the current state of trade unionism in Malaysia in comparison with ten other countries in the Asia Pacific, Europe and America regions.
Kajian ini telah mengenalpasti aspek keberkesanan kesatuan sekerja, dan persepsi anggota kesatuan pekerja mengenai pelaksanaan Perjanjian Perkongsian Trans-Pasifik (TPPA). Di samping itu, kajian itu juga telah membincangkan penanda aras untuk menentukan keadaan semasa kesatuan perdagangan di Malaysia berbanding dengan sepuluh negara lain di rantau Asia Pasifik, Eropah dan Amerika Syarikat.

xxii, 626 pages: illustrations, map; 29 cm.

ISBN 0136107214
ISBN 9780136107217

Abstract
Services Marketing: People, Technology, Strategy is the eighth edition of the globally leading textbook for Services Marketing by Jochen Wirtz and Christopher Lovelock, extensively updated to feature the latest academic research, industry trends, and technology, social media and case examples. This textbook takes on a strong managerial approach presented through a coherent and progressive pedagogical framework rooted in solid academic research. Featuring cases and examples from all over the world, Services Marketing: People, Technology, Strategy is suitable for students who want to gain a wider managerial view of Services Marketing.
Abstract
Excellent service is the foundation for services marketing, contend Leonard Berry and A. Parasuraman in this companion volume to Delivering Quality Service. Building on eight years of research, the authors develop a model for understanding the relationship between quality and marketing in services and offer dozens of practical insights into ways to improve services marketing. They argue that superior service cannot be manufactured in a factory, packaged, and delivered intact to customers. Though an innovative service concept may give a company an initial edge, superior quality is vital to sustaining success.

Abstract
This book acquaints students with the various approaches and applications but does not dwell on the underlying statistics. A second approach focuses on the strategic side of customer relationship management.

Abstract
The central thesis of this book is that corporations must undertake nothing less than a radical reinvention of how they reach their customers to sell their products.
Abstract
In this book we will take the approach that "Office Automation" is much more than just better tools, but falls significantly short of replacing every person in an office.

ISBN 9780138498863

I. Title

P2

Abstract
Innovative in perspective, this book emphasizes the extremely close connection between communication and the traditional functions of management. It explores both the objective elements of communication (sender, message, channel and receiver) and the subjective elements (assumptions, purpose — intention/audience, and interpretation. It recognizes — and emphasizes — that human communication is complex and that communication is not the message sent, but the message received. Describes how communication works. Discusses the basic communication skills in listening, public speaking, writing, and networking. Explores communication in relation to management and leadership -- and the communication climate. Addresses specific types of communication that managers need in motivating people, helping teams function, conducting meetings, and managing conflict.

Communicating globally: intercultural communication and international business.

xvi, 319 pages: illustrations; 23 cm.

ISBN 9781412913171
ISBN 1412913179

P4

Abstract
Communicating Globally: Intercultural Communication and International Business uniquely integrates the theory and skills of intercultural communication with the practices of multinational organizations and international business. Authors Wallace V. Schmidt, Roger N. Conaway, Susan S. Easton, and William J. Wardrope provide students with a cultural general awareness of diverse world views, valuable insights on understanding and overcoming cultural differences, and a clear path to international business success.
Abstract

Business Communication: Building Critical Skills provides a unique approach to a hands-on course, devised and created in its previous editions by Kitty Locker, with the assistance of a community college colleague, Stephen Kaczmarek. The innovative module structure allows instructors to focus on specific skills and provides greater flexibility for short courses and different teaching approaches. While grounded in solid business communication fundamentals, this text takes a strong workplace activity orientation which helps students build the writing, speaking, and listening skills that are crucial for success in the 21st-century workplace.

Abstract

ESSENTIALS OF BUSINESS COMMUNICATION, 9TH EDITION presents a streamlined approach to business communication that includes unparalleled resources and author support. ESSENTIALS OF BUSINESS COMMUNICATION provides a four-in-one learning package: authoritative text, practical workbook, self-teaching grammar/mechanics handbook, and premium Web site. Especially effective for those with outdated or inadequate language skills, the Ninth Edition offers extraordinary print and digital exercises to help students build confidence as they review grammar, punctuation, and writing guidelines. Textbook chapters teach basic writing skills and then apply these skills to a variety of e-mails, memos, letters, reports, and resumes. Realistic model documents and structured writing assignments help build lasting workplace skills.

P2

Abstract
These case studies offer a unique perspective on making financial decisions in a globalizing world. The cases build the basics of understanding international financial markets - including the economics of exchange rates and international asset allocation - and then consider how firm financing and investment decisions must adapt to international circumstances. The cases provide the opportunity to consider the most critical firm financial decisions - from foreign exchange hedging strategies, the financing of multinational firm subsidiaries, cross-border valuation, to how to measure and manage the risks of operating in emerging markets.

It is now more than 10 years since the currency crisis struck Malaysia. Much has been written about the crisis and the controls imposed by the Malaysian Government to stop the devaluation of the Ringgit. ... Practically no one has implicated the currency traders for the devaluation and the crisis.
Abstract
Foundations of Financial Management has built a loyal following due to its strong real-world emphasis, clear writing style, and step-by-step explanations that simplify difficult concepts. The text focuses on the "nuts and bolts" of finance with clear and thorough treatment of concepts and applications. In addition to completing the revisions, Block, Hirt, and Danielsen also revise all end of chapter problems and complete the solutions themselves. The authors know what works and what doesn't work for students, and they have consistently maintained a product that is responsive to the demands of the marketplace.

Abstract
While issues surrounding Muslim women are common in the international media, the voices of Muslim women themselves are largely absent from media coverage and despite the rapidly increasing presence of Muslim women in online groups and…

THE INVOLVEMENT OF MALE HOMOSEXUALS WITH MAINSTREAM NEWSPAPERS REPORTING OF HOMOSEXUALITY / Mohd Shahnawi Muhmad Pirus
xvii, 337 pages; illustrations; 30 cm.

P1

Abstract
The contributory factors to male homosexuals' (MH) involvement with mainstream newspapers reporting of homosexuality was observed on news content representation including the reporting criterion and its consistency to be reported to the audiences, triggering the public interest in receiving information and advocating themselves towards a guided living culture. This study was guided with two theories; (i) Uses and Gratifications Theory, and (ii) Social Judgment Theory following a series of content analysis on newspapers reporting of homosexuality that was conducted to understand how it was presented.

Abstract
PRODUCT DESCRIPTION CONTENTS AVAILABLE ONLINE PRODUCT DESCRIPTION
Set up a standing order and save Chitty on Contracts is the pre-eminent reference work on contract law in the common law world. It has been used for generations by lawyers as the leading guide to contracts, and is relied on to provide insight and aid in complex areas of the law. The work is in two volumes: Volume One covers the General Principles of contract law, while Volume Two offers guidance on Specific Contracts, namely contractual issues in specific industry sectors. (Volume One of the work is available as a standalone for those who need coverage of the general principles of contract law only).

Abstract
Isu yang disajikan dalam buku ini berkisar sepenuhnya kepada isu bahasa Melayu, yakni dapat dibahagikan kepada tiga, pertama isu tatabahasa bahasa Melayu, dialek bahasa Melayu dan bahasa kerabat, dan isu pendidikan dalam bahasa Melayu. Semua isu ini diolah secara kreatif, terkini dan data bahasa yang diperoleh melalui penyelidikan lapangan yang dilakukan. Adalah diharapkan melalui sepuluh bab isu berkaitan bahasa Melayu yang disajikan dalam buku ini mampu memberikan satu cakerawala berfikir secara lebih ilmiah dan dapat dipertanggungjawabkan.

STUDIES TO ELUCIDATE MECHANISMS UNDERLYING THE ANTICATARACT EFFECT OF ANNATTO TOCOTRIENOL IN RATS / Nurul Alimah Abdul Nasir
xx, 284 pages: illustrations; 30 cm.
P1

Abstract
Cataract, the leading cause of blindness, is currently treated only by surgery. Cataract carries risk of complications and its management increases economic burden. Thus, development of pharmacological options with anticataract effects is important. Oxidative-nitrosative stress, non-enzymatic glycation and osmotic stress underlie cataractogenesis. Since tocotrienol possesses biological properties that may suppress pathophysiological mechanism of cataractogenesis, we investigated its anticataract effects in rats.

Includes index.

P1, P2

Abstract
Geoffrey Chaucer wrote The Canterbury Tales almost 600 years ago, in the late Middle Ages, a historical distance that at first sight might appear problematic. This lengthy poem was produced at a time when the English language was still in its infancy and the language is not always immediately recognisable to us today. In the same way, late medieval culture was very different from that of the present day.
Abstract
In English Inside Out prominent proponents of literary studies take a close look at the current state of the discipline and envisage its future. How has the rise of political correctness or the closing of the American mind affected the study of literature? Amid diverse theoretical debates about the canon in the media and in academia, these essays explore where the profession is going and what its responsibilities are. The collected essays range through a variety of topical issues: the problem of negotiating between intellectual and political forces; current controversies within Afro-American and feminist criticism; the influence of cultural and gay studies on the profession.

Abstract
This new edition also features an essay on Shakespeare's language by David Crystal, and a bibliography of foundational works.

Abstract
This adaptation of Charles Dickens' Hard Times captures the same feelings of desolate desperation and energizing celebration that overwhelms and ultimately consumes the characters in the novel itself.
910 pages ; 18 cm.

1. Research - Case studies - Moral and ethical aspects. I. Title

P1

Abstract
"Providing the tools necessary for a robust debate, this book explains various forms of scientific misconduct and describes real ethical controversies that have occurred in science. The first part of the book includes a description of a variety of ethical violations, why they occur, how they are handled, and what can be done to prevent them along with a discussion of the peer-review process. The second part of the book presents real-life case studies that review the known facts and allows readers to decide for themselves whether an ethical violation has occurred and what should be done" -- Provided by publisher.

P1

Abstract
Geoid is vital information in the determination of orthometric height via GNSS levelling. Based on the ellipsoidal height observed by GNSS, the accurate orthometric height can be easily computed by adding precise and accurate geoid model information. This will particularly enable the users to replace the traditional orthometric height determination techniques to become faster and more cost effective.
Abstract
Planetary Science: The Science of Planets around Stars, explains the science associated with the planets, the stars they orbit, and the interactions between them. It examines the formation, evolution, and death of stars and the properties of the Sun that influence the planets of the Solar System.

Abstract
Covers a broad scope of subjects, from classical physics that goes back to the age of Newton to new ideas just formulated in the twenty-first century. The book highlights the core areas of physics that predate the twentieth century, including mechanics, electromagnetism, optics, and thermodynamics. It also focuses on modern physics, covering quantum mechanics, atomic and nuclear physics, fundamental particles, and relativity.

Abstract
Covers a broad scope of subjects, from classical physics that goes back to the age of Newton to new ideas just formulated in the twenty-first century. The book highlights the core areas of physics that predate the twentieth century, including mechanics, electromagnetism, optics, and thermodynamics. It also focuses on modern physics, covering quantum mechanics, atomic and nuclear physics, fundamental particles, and relativity.
Abstract
This logically organized manual is intended for use in a two-semester introductory physics course, either calculus- or algebra/trigonometry-based, and may be used in conjunction with any physics text.

Sustainable Landscaping : Principles and Practices / Marietta M. Loehrlein
  xix, 305 pages: illustrations; 24 cm.
  ISBN 9781466593206

P1

Abstract
While landscaping has the potential to be part of the solution to certain environmental problems, the quest for beauty can also produce effects that are harmful to the environment. Sustainable Landscaping: Principles and Practices examines landscape practices that adversely affect the environment, which occur in the process of constructing, implementing, and managing residential and commercial landscapes. It explores ways to change these practices to have a more positive effect, describing the principles of sustainable landscaping and proposing solutions to challenges that can arise.

Abstract
Obstetrics by Ten Teachers is well established as a concise, yet comprehensive, guide within its field. The twentieth edition has been thoroughly updated by a new team of 'teachers', integrating clinical material with the latest scientific developments that underpin patient care. Each chapter is highly structured, with learning objectives, definitions, aetiology, clinical features, investigations, treatments, case histories and key point summaries and additional reading where appropriate.

Abstract
The volume applies to the study of the motor system the computational approach developed by David Marr for the visual system. Accordingly, understanding movement is viewed as an information processing problem, centred on
the representation of appropriate computational structures. In particular, the book deals with the representation of objects, concurrent parallel processes, trajectory formation patterns and patterns of interaction with the environment. A number of modeling techniques are discussed, ranging from computational geometry to artificial intelligence, integrating very different aspects of movement, especially those which are not directly motoric.

Hall, Susan J., 1953-
Basic biomechanics / Susan J. Hall, 1953-
xvi. 544 pages: illustrations; 28 cm.

ISBN 9780071104319

1. Biomechanics 2. Biomechanics - Problems, exercises, etc. I. Title
P4

Abstract
The Basic Biomechanics has been significantly updated from the previous edition. The approach taken remains an integrated balance of qualitative and quantitative examples, applications, and problems designed to illustrate the principles discussed. This edition also retains the important sensitivity to the fact that some beginning students of biomechanics possess weak backgrounds in mathematics. For this reason, it includes numerous sample problems and applications, along with practical advice on approaching quantitative problems.

P4

Abstract
Key topics address fitness assessment, conditioning, emergency preparedness, injury management, therapeutic modalities, nutrition, ethical and legal considerations, and much more. Students will explore careers in fitness instruction, athletic training, exercise physiology, sports management, and even physical therapy, while practicing important, job-related skills. More than a text, this unique hands-on learning tool asks students to perform essential skills, such as taping injuries, researching sports medicine supplies and their costs, and even forming a mock safety committee to mitigate injury risks to athletes.

Abstract
Therapeutic Modalities for Musculoskeletal Injuries, applies evidence-based research and clinical experiences of top practitioners in the field to optimize the care of musculoskeletal injuries and provides students and practitioners with solid fundamentals in development of rehabilitation programs. The content of this fourth edition has been significantly updated and revitalized to include all modalities that coincide with BOC requirements and offers the latest in contemporary science in the field.
Includes website passcode.

ISBN 9781617119316

I. Prentice, William E. II. Title

Abstract
Rehabilitation Techniques for Sports Medicine and Athletic Training, is a comprehensive reference written for the athletic training student who is interested in gaining more in-depth exposure to the theory and practical application of rehabilitation techniques used in a sports medicine environment.

The Handbook presents principles which form the foundation of the profession and incorporates a set of spinal and peripheral regional chapters which detail functional anatomy, the injuries common to those regions, and evidence-based assessment and management approaches. Its design incorporates numerous photographs, figures, tables, practitioner tips and detailed sample Patient Record Forms. This book is comprehensively referenced and multi-authored, and is essential to anyone involved in sports therapy, from their first year as an undergraduate, to those currently in professional practice.

World-class rehabilitation of the injured athlete integrates best practice in sports medicine and physical therapy with training and conditioning techniques based on cutting-edge sports science. In this ground-breaking new book, leading sports injury and rehabilitation professionals, strength and conditioning coaches, biomechanists and sport scientists show how this integrated model works across the spectrum of athlete care. In every chapter, there is a sharp focus on the return to performance, rather than just a return to play.
Abstract

Designed for undergraduate course work, this exercise physiology textbook unites research and theory with real-world application so students can easily relate to the concepts being presented. The unique applied approach fully engages you in discovering how the human body works and responds to exercise. You’ll not only gain a solid foundation in exercise physiology concepts, you’ll also learn how to apply these concepts on the job to optimize athletic performance and well-being. Moreover, you’ll come to understand the vital health benefits of exercise and physical activity for all individuals at all ages, including special populations.

P1

Abstract
Advancement of the imaging technology nowadays demands sophisticated method to represent the captured image
in the form of curves and surfaces. However, the challenge in curve and surface fitting techniques is the smoothness
and accurateness of the result and the complexity of the techniques. Therefore, the primary goal of this research is to
develop new curve and surface fitting techniques using beta-spline which has G2 continuity, high accuracy and less
number of computations. This is due to the properties of cubic beta-spline itself with G2 conditions, and located
close to the control polygon.

Abstract
Many people don't realize that a poorly designed computer workstation and/or bad work habits can result in serious
health problems. Common symptoms associated with poor design or habits include discomfort in the back, neck and
shoulders, hands and wrists, as well as headaches and eyestrain.
Abstract
The Human Centered Design (HCD) approach rooted in the semi-scientific field of ergonomics was introduced into the software development process to increase the software usability and quality by focusing on the software use and applying human factors/ergonomics and usability knowledge and techniques. In the progress the Human Centered Software Engineering (HCSE) was developed more than a decade ago. HCSE is the framework for integrating the human centered design philosophy and usability engineering into traditional systems development method.
Abstract
Case studies are included that show the relevance of these tools to practical settings. The third edition offers a view of the design tools that even the greenest of engineers will have in their toolbox in the coming years.

P1

Abstract
Nanomaterials are important to today's area of research due to their unique properties and characteristics. Metal oxide nanostructures are important because they can be utilised in various applications. Therefore, new findings in this area of research are well sought-after. Nanomaterials research not only involves the development of new materials but also characterisation methods and device fabrication. It is important that the new and novel materials are understood from the physics and the chemistry points of view so that the science and technology of nanomaterials and devices can be carefully documented and established.

FSPU

Abstract

As a construction project manager, achieving this while maintaining quality is the most valuable package you can offer your clients. Of course, its value derives largely from it's difficulty – if it were easy to complete jobs entirely to plan then it would happen rather more often. Using a combination of worked examples and case studies, this book examines how projects go over-cost, what lessons can be learned from past examples and what approaches have successfully been employed.

Finite-Element Modelling of Structural Concrete : Short-Term Static and Dynamic Loading Conditions / Michael D. Kotsovos
xv, 365 pages: illustrations; 27 cm.

ISBN 9781498712309

1. Reinforced concrete construction 2. Finite element method.I. Title

P3

Abstract

Finite-Element Modelling of Structural Concrete: Short-Term Static and Dynamic Loading Conditions presents a finite-element model of structural concrete under short-term loading, covering the whole range of short-term loading conditions, from static (monotonic and cyclic) to dynamic (seismic and impact) cases. Experimental data on the behavior of concrete at both the material and structural levels reveal the unavoidable development of triaxial stress conditions prior to failure which dictate the collapse and ductility of structural concrete members. Moreover, and in contrast with generally accepted tenets, it can be shown that the post-peak behavior of concrete as a material is realistically described by a complete and immediate loss of load-carrying capacity.

P3

Abstract
Originally published in the fall of 1983, Braja M. Das' Seventh Edition of PRINCIPLES OF FOUNDATION ENGINEERING continues to maintain the careful balance of current research and practical field applications that has made it the leading text in foundation engineering courses. Featuring a wealth of worked-out examples and figures that help students with theory and problem-solving skills, the book introduces civil engineering students to the fundamental concepts and application of foundation analysis design. Throughout, Das emphasizes the judgment needed to properly apply the theories and analysis to the evaluation of soils and foundation design as well as the need for field experience.

Marriott, Martin
Nalluri & Featherstone's civil engineering hydraulics : essential theory with worked examples / Martin Marriott
xvi, 453 pages: charts; 25 cm.
ISBN 9781118915639

P3

Abstract
This classic text provides a succinct introduction to the theory of civil engineering hydraulics, together with a large number of worked examples and exercise problems. Each chapter contains theory sections and worked examples, followed by a list of recommended reading and references. There are further problems as a useful resource for students to tackle, and exercises to enable students to assess their understanding. The numerical answers to these are at the back of the book, and solutions are available to download from the book’s companion website.

386. TC175.2 .S25 1996
Salim Keteron
LOCAL SCOUR DUE TO SUBMERGED HORIZONTAL JET / Salim Keteron
ix, 102 pages: illustrations; 30 cm.

P1

Abstract
The phenomena of local scour and sediment transport due to a horizontal jet issuing from a sluice and flowing over a rigid apron, then on to an erodible bed, have been investigated. Based on experimental data, the scour characteristics have been correlated through the development of empirical expressions for the time to reach equilibrium stage, the locations of maximum scour depth and peak of dune, and the variation of maximum scour depth with time.
Abstract
With contributions from a number of experts in the field and the inclusion of real life case studies this book will be the first port of call for practising engineers working in the areas of flood risk management and drainage. Coverage includes the design of fluvial, coastal and urban flood defences, as well as guidance on relevant legislation, lessons learned from past disasters and means of improving the environment while managing flood risk. The intended audience is practising (graduate to senior level) engineers, hydrologists and project managers working on flood defence projects, mainly in consultancies but also in the Environment Agency and Local Authorities.

Abstract
"Principles of Environmental Engineering" is intended for a course in introductory environmental engineering for sophomore- or junior-level students. The emphasis of this text is on engineering principles rather than on engineering design. Students should understand such calculus topics as differentiation, integrations, and differential equations. Principles places more emphasis on scientific principles, ethics, and safety, and focuses less on engineering design. The text exposes students to a broader range of environmental topics through separate chapters on ecosystems, geological and soil resources, and agricultural effects. This new edition includes a new chapter on Biology, updated science and technology discussions to reflect the latest trends and new case studies in each chapter.

Abstract
The clean tech revolution : discover the top trends, technologies, and companies to watch / Ron Pernick
ix, 313 pages: illustrations; 24 cm.
ISBN 9780060896249 (pbk.)
Abstract
In The Clean Tech Revolution, authors Ron Pernick and Clint Wilder identify the major forces that have pushed clean tech from back-to-the-earth utopian dream to its current revolution among the inner circles of corporate boardrooms, on Wall Street trading floors, and in government offices around the globe. By highlighting eight major clean-tech sectors—solar energy, wind power, biofuels and biomaterials, green buildings, personal transportation, the smart grid, mobile applications, and water filtration—they uncover how investors, entrepreneurs, and individuals can profit from this next wave of technological innovation.

Abstract
Throughout the book, the relationships among the five spheres and their connections to the sciences are emphasized. For better or worse, technology is closely intertwined with the other four spheres.

Water pollution : economics aspects and research needs / Allen V. Kneese
ix, 107 pages: illustrations; 22 cm
Routledge revivals.
Originally published in 1962 by Resources for the Future, Inc.
ISBN 9781138935655 (hbk.)
1. Water - Pollution - Economic aspects 2. Water - Pollution - Research. I. Title II. Series
P3
Abstract
Public agencies and industry will probably spend tens of billions of dollars on new water pollution abatement facilities in the next few decades. Added billions will be spent for the operation of new and existing facilities. How can physical science research reduce the cost of achieving objectives? And how can social science research make sure that the right objectives are being efficiently pursued? This title, first published in 1962, is directed to the orientation of the research effort, and the tool used for this purpose is an economic framework. This book will be of interest to students of economics and environmental studies.

23 pages: colour illustrations, photographs ; 25 cm.
For over three decades, Building Construction Illustrated has offered an outstanding introduction to the principles of building construction. This new edition of the revered classic remains as relevant as ever, providing the latest information in Francis D.K. Ching's signature style. Its rich and comprehensive approach clearly presents all of the basic concepts underlying building construction.

Each stakeholder in the construction industry has a responsibility to drive innovation, and this book will be key reading for consultants, contractors, subcontractors, suppliers and clients, as well as policy makers and all serious students …
COST STUDIES OF BUILDINGS / Allan Ashworth
xix, 549 pages

ISBN 9781138017351

Abstract
This practical guide to cost studies of buildings has been updated and revised throughout for the 5th edition. New chapters have been added on the RICS New Rules of Measurement (NRM) for order of cost estimating and elemental cost planning, and on the procurement of construction projects.

Building Pathology : Principles and Practice / David S Watt, 1963-
ix, 305 pages: illustrations; 25 cm.

ISBN 9781405161039

Abstract
Building pathology provides an interdisciplinary approach to the study of defects and performance in order to develop appropriate remedial and management solutions. It considers how the structure and materials of a building relate to its environment, its occupants and the way the building is used, so as to develop a better understanding of building failures.

The aim of this work was to assess the technical feasibility of producing a structural composite from Calcutta bamboo. The approach was to compare selected chemical, physical and mechanical properties of bamboo to timber species that are commonly used in the manufacture of structural composites.

Abstract
Building services, technology and design / Roger Greeno
vi, 318 pages: illustrations, plans; 25 cm.
Co-published with the Chartered Institute of Building.
Abstract
Building Services, Technology and Design provides a concise guide to the installation and design of principal services in domestic and commercial buildings. It covers the level 2 module of The CIOB's Education Framework and is officially sanctioned by the CIOB as the recognised text for that module. The book combines theory, design and application in one volume and is supported throughout with illustrations, design examples, tables and charts.

FSPU

Abstract
Environment and Services provides a comprehensive introduction to the technical aspects of building design and construction in the fields of physical environment and services installation. It explains the principles involved, the materials and equipment required, design methods and applications. The book is suitable for undergraduate degree courses in building, building surveying, building engineering and management, and architecture. It is also suitable for HNC/D courses in building studies and building services engineering as well as CIOB and RIBA examinations.

P1

Abstract
The application of alcohol fuels on spark ignition (SI) engine has recently become an attraction as an alternative to gasoline fuel. This is due to the concerns on environmental pollution, depletion of fossil fuels, and stringent regulation. Alcohol fuel is indeed an attractive alternative fuel as it had been found to improve octane number, enhance oxygen content, and reduce carbon monoxide emissions. One of the well-known alcohol fuels is methanol fuel that can be blended with gasoline to produce better engine operation in spark ignition engine...

Revision of: Loss prevention in the process industries/ Frank P. Lees. 2nd ed. 1996.

P3

Abstract
Over the last three decades the process industries have grown very rapidly, with corresponding increases in the quantities of hazardous materials in process, storage or transport. Plants have become larger and are often situated in or close to densely populated areas. Increased hazard of loss of life or property is continually highlighted with incidents such as Flixborough, Bhopal, Chernobyl, Three Mile Island, the Phillips 66 incident, and Piper Alpha to name but a few.

Abstract
Manufacturing Engineering and Technology, presents a mostly qualitative description of the science, technology,
and practice of manufacturing. This includes detailed descriptions of manufacturing processes and the
manufacturing enterprise that will help introduce students to important concepts. With a total of 120 examples and
case studies, up-to-date and comprehensive coverage of all topics, and superior two-color graphics, this text
provides a solid background for manufacturing students and serves as a valuable reference text for professionals.

P1

Abstract
This Professorial Lecture publication is based on the countless hours of precise and meticulous research and literature in order to offer its readers a clear picture on how the Zionist and pro-Israeli media manipulates and portrays issues which involves their interest as well as how Arabs and Muslim were portrayed by them. A large part of the pro-Israeli propaganda machine has been known to engage in ‘war journalism’ to ensure the pursuit of Israeli interest at any cost. Although the world media traditionally tries to create an illusion of propagating peace among their audiences, through skewed and biased interpretation, the media can be manipulated and abused to channel and unleash a new type of warfare to influence audiences' perceptions on a global state.

Abstract
This popular textbook provides a concise, but comprehensive, overview of health research as an integrated, problem-solving process. It bridges the gap between health research methods and evidence-based clinical practice, making it an essential tool for students embarking on research. Practitioners also benefit from guidance on interpreting the ever-expanding published research in clinical and scientific journals, to ensure their practice is up to date and evidence-based and to help patients understand information obtained online.

Biological Monitoring of Exposure to Chemicals: Metals.
  xvii, 280 pages: illustrations; 25 cm.
  "A Wiley-Interscience publication."

ISBN 0471854913

P1

Abstract
This companion volume to Biological Monitoring of Exposure to Chemicals: Organic Compounds presents recent results from both field and laboratory studies investigating the presence of metals and organometallic compounds in biological media. A distinguished list of contributors describe studies which assess the extent of human exposure to metals, and recount fundamental studies at the molecular level, such as investigation of immunotoxicological effects of the interaction of metals during absorption and biological transformation. There is also a study of the biological monitoring of environmental contamination that demonstrates how biological samples determine the transport and fate of metals in the environment.

Abstract
This book provides comprehensive guides for students and information professionals in e-book selection practices. It begins with the overview, history and theories related to e-book selection. It also includes comprehensive discussion on e-book selection practices, library initiatives planning and library return on investment. Each chapter comprises a few sub-topics which describe in details the main idea. In making the content more interesting, the book includes detail explanation on patron-driven acquisition as another method of purchasing e-book. Finally, this book provides the conceptual framework for the above concepts.
