ABSTRACT

Cova Lake is a wetland habitats in Malaysia are relatively scarce and few attract the number or variety of waterbirds that have been recorded at Kota Damansara, Petaling Jaya. Cova Lake Kota Damansara are located a line between Petaling Jaya and Shah Alam, Selangor. This Cova Lake the potential of community park and urban wetland at Kota Damansara. This study also shows that Cova Lake has the strength of the uniqueness of the wetland through their waterbird habitat and open space. The urban wetland become a product of waterbird environment. Preservation from local communities with this wetland environment will benefit the local economy. The main idea in ecological is to enhancing the Cova Lake of Kota Damansara town, to promote the community park and to reach waterbird habitat benefits.

Keywords : community park, waterbirds, quality of life, cova lake kota damansara, ecological

1.0 INTRODUCTION TO TOPIC

1.1 Introduction	8
1.2 Definition of Terminologies	9
1.3 Problem Statement	10
1.3.1 Physical	
1.3.2 Environmental	
1.3.3 Socio-Cultural	
1.4 Aim & Objectives	11
1.3.1 Aims	
1.3.2 Objectives	
1.5 Research Methodology	12
1.5.1 Data Collection	12-13
1.6 Scope of Study	
1.6.1 Scope Study	13
1.7 Significance Of Study	13
1.7.1 Significance of study	13
1.7.2 Background of The study area	14-15

1.8 Chapter Summary	16
----------------------------	-----------

2.0 LITERATURE REVIEW & REFERENCE CASES

2.1 Introduction	17
2.2 The functional of community park	18
2.2.1 Open Space Design	19
2.2.2 Community Park Guidelines	20
2.2.3 Landscape Ecological Design	21
2.3 Reference Case 2: National Wetland Park Tieling City, China.	
2.3.1 National Wetland Park Tieling City, China	22-26
2.3.2 Putrajaya Wetland, Malaysia	27-31
2.5 Comparison Study	32
2.6 Chapter Summary	32

3.0 INVENTORY AND ANALYSIS

3.1 Introduction	33
3.2 BACKGROUND OF STUDY	33-34
3.2.1 Location	
3.2.2 Site Background	
3.3 Physical Context	
3.3.1. Land Use and Context	35
3.3.2. Commercial Area	35
3.3.3. Residential Area	36
3.3.4. Recreational Area	37-38
3.3.5. Institutional Area	39-40
3.4. Vehicular Circulation	41-44
3.5. Demography Profile	45
3.6. Site Activities	46-47
3.7. Environmental Context	
3.7.1. Climate	48-50
3.7.2. Hydrology (Water Body)	51-54
3.7.3. Vegetation	55-58
3.7.4. Wildlife	59-62
3.7.5. Topography	63
3.8 Chapter Summary	64
