## **ACKNOWLEDGEMENTS**

Thanks to Allah SWT, who with His willing have given me the opportunity to complete my thesis. There are so many people to thank for their help on the journey I have taken. I would like to express my gratitude to all those who gave me the possibility to complete this thesis.

I would like to thank everybody who supported me to complete this research, especially to my advisor, Mr. Adam Masumi. Thank you for your patience and your guidance for me to complete this project. I would also like to thank my parents, family and friends who supported me to complete this thesis. Lastly to all respondents, thank you for giving me such cooperation's to complete this project.

Thank you very much.

## **ABSTRACT**

This study is actually to investigate a correlation between music preferences and personality among undergraduate music students in UiTM Shah Alam. It identified the correlation between music preferences and personality.

Besides that, this study also helps the students of composition department to get an idea of composing their new piece or song. Hence, this study can also help the students to listen a wide range variety of music among music students in UiTM Shah Alam, including Bachelor Degree in Music Performance, Bachelor Degree in Music Composition, Bachelor Degree in Music Education, Bachelor Degree in Music Business and also Diploma in Music.
