CANDIDATE’S DECLARATION

I declare that the work in this thesis was carried out in accordance with the regulation of Universiti Teknologi MARA. It is original and is the result of my work, unless otherwise indicated or acknowledged as referenced work. This thesis has not been submitted to any academic institution or non-academic institution for any other degree or qualification.

In the event that of my thesis is found to violate the condition mentioned above, I voluntarily waive the night of conferment of my degree and agree to be subjected to the disciplinary rules and regulation of Universiti Teknologi MARA.

Candidate’s name : Mohd Fais bin Mohd Faizu
Candidate’s matric ID : 2016728211
Program : Bachelor of Science (Hons) Furniture Technology
Faculty : Applied Sciences
Thesis title : MULTIPURPOSE FRAME STORAGE FROM WOODEN PALLET (Pinus radiata)

Candidate’s signature : 

Date : JANUARY 2019
ABSTRACT

MULTIPURPOSE FRAME STORAGE FROM WOODEN PALLETT
\textit{(PINUS RADIA\TA)}

In this modern era, it is hardly to see multipurpose product that are cheap in the market. This is because that most products available in the market are focus on one single function only and it is in the form of solid wood. The difficulty to see multipurpose product that are cheap in the market also cause by the mind set of customers that likely to choose furniture made from solid wood because solid wood provide a good resistance, strong and long lasting but it come with expensive price. Not only that, it is also cause by limited exposure received by people in multipurpose concept. Thus the purposes of this study are to design a multipurpose storage frame by using wooden pallet \textit{(Pinus radiata)} and produce it at economical price. After the design and production process completed, a survey was conducted to 85 respondents based on gender, profession and age. There are seven characteristics of the product were evaluated such multipurpose frame storage, wooden pallet is a suitable for multipurpose frame storage, combination of modern and multipurpose concept, colour, design can save the space, potential to be commercialized the market and can be used in office, house and any space. The results show that there are significant different for all characteristics except for wooden pallet is a suitable for multipurpose frame storage, colour, potential to be commercialized the market and can be used in office, house and any space. So it can conclude that wooden pallet can be a suitable material to produce this multipurpose storage frame. Overall this product has a potential to be commercialize to the industry with economical price.

## CHAPTER 1 INTRODUCTION
1.1 Background of the study  
1.2 Problem statement  
1.3 Justification  
1.4 Scope and limitation of study  
1.5 Objectives of study  

## CHAPTER 2 LITERATURE REVIEW
2.1 Furniture industry in Malaysia  
2.2 Furniture design  
2.2.1 Frame-structure of design  
2.3 Ergonomics  
2.4 Anthropometrics  
2.5 Plywood  
2.6 Wooden pallet (*Pinus radiata*)  
2.7 Finishing  
2.7.1 Wax  
2.8 Jointing  
2.8.1 Edge-to-edge joint  

## CHAPTER 3 MATERIAL AND METHOD
3.1 Material selection  
3.2 Methods  
3.2.1 Design process
