ABSTRACT

Turning the attention towards the present time, we can note the situation now is of somewhat different. An apparent observation can be made in terms of infrastructure development. Road networks of the past are no longer capable of sustaining the substantial increase of vehicle volume. There has been extensive upgrading and buildings of new highway ease traffic congestion. These works required land acquisitions from private parties as well as involved a considerable amount of demolition project. An ideal case study to illustrate construction of the Lumba Kuda Flats in Johor Bahru. Due to the alarmingly decreasing land for construction nations are calling for the use of developed sites and conversions of existing buildings to meet current demands. Therefore on a broad spectrum, demolition can be predicted to be playing as a role major in future nation building. The industry which was previously unknown and termed unsophisticated has finally found itself in the limelight with greater appreciation.

2. DEMOLITION

2.1 Introduction 10
2.2 Demolition Background 10
2.3 Definition of Demolition 12
2.4 The Demolition Process 14
   2.4.1 Pre-Demolition Phase 15
   2.4.2 Demolition Phase 16
   2.4.3 Post-Demolition Phase 17
2.5 Demolition techniques 18
   2.5.1 Demolition by hand 19
   2.5.2 Demolition by Towers and High Reach Cranes 32
   2.5.3 Demolition by Machines 33
   2.5.4 Demolition by Chemical Agents 45
   2.5.5 Demolition by Water Jetting 58
2.6 Demolition Safety Requirements 59
   2.6.1 Site Safety 60
   2.6.2 Hand Powered Tools 61
   2.6.3 Basic Hand Tools – Soft Stripping 63
   2.6.4 Towers and Machines 64
   2.6.5 Chemical Agents 65
   2.6.6 Explosives 66
2.6.7 Personnel Protective Equipment 67
2.7 Demolition waste management and recycling 67
2.8 Demolition and environment 76
  2.8.1 Noise 77
  2.8.2 Dust and Grit 79
  2.8.3 Vibration 81
  2.8.4 Flying Debris and Air – Blast 83
2.9 Summary 85

3. RESEARCH METHODOLOGY 88
  3.1 Introduction 89
  3.2 Literature review and background research 89
  3.3 Questionnaire Survey 90
  3.4 Summary 91

4. CASE STUDY
   (DEMOLITION PROJECT OF LUMBA KUDA FLATS) 93
