ABSTRACT

Maintenance industry is one sector very important in our life. Maintenance industry also use more foreign worker to maintain more buildings in Malaysia. The statistics shows the Indonesia is higher percentages than other country to work in Malaysia. The contractor more like to taken the foreign worker than local worker. First factor why contractor choose foreign worker is a low cost than taken local worker. The other reason are local worker more like choose of work and assumed this industry is very hard. Throughout research, the quality of work by foreign worker is very low. This is because the foreign workers didn't given overall reveal about training and motivation of quality on work. They are also didn't give facilities such as accommodation, transportation and others to easy life in Malaysia. The suggestion are to increase the quality work of foreign worker is given training and motivation monthly, given facilities, taken foreign worker must be follow rules and procedure before work in Malaysia. This industry also must be develop and reveal to introduce to society about the industry is very important same with development in Malaysia. This also can reduce problem of unemployment in Malaysia. The contractor must be realize about more impact negative than positive of usage foreign workers employment to our future Maintenance industries

Abstract

Chapter 1 – Introduction (The Use of Foreign Worker in Maintenance Industry)

1.1 Introduction 1

1.2 Issue / Problem Statement 3

1.3 Objective of the study 3

1.4 Scope of Dissertation 4

1.5 Methodology 4

1.6 Summary of Chapter 6

Chapter 2 – What is Maintenance Industry?

2.1 Definition of Maintenance 8

2.2 Generally 10

2.3 Function of Maintenance Industry 11

2.4 Types of Maintenance 12

2.5 Classification of Maintenance 16

2.6 Maintenance Management 18
2.7 Organization In Maintenance Management 20
2.8 Policy and Legal in Maintenance work 22

Chapter 3 – Foreign Worker in Malaysia

3.1 Definition of Foreign Worker and History 34
3.2 Percent Distribution of Foreign Worker
   Born Person by Occupation 34
3.3 Policy and Rules 36
3.4 Procedure to Apply Works in Malaysia 41
3.5 Quality 46

Chapter 4 – Methodology and Case Study

4.1 Introduction Research Methodology 47
4.2 Faber Facilities Sdn. Bhd. 49
4.3 Case Study 1 – Condominium Danau Impian 51
4.4 Case Study 2 – Condominium Casa Desa 54
4.5 Case Study 3- Apartment Teratak Muhibah 57
4.6 Case Study 4 – Condominium Danau Murni 61
Chapter 5 – Analysis and Findings

5.1 Introduction 65

5.2 Questionnaire for foreign worker 66

5.2.1 Age 66

5.2.2 Gender 67

5.2.3 Foreign Worker – Country 68

5.2.4 Factor Influence of Foreign Worker in Malaysia 69

5.2.5 Scope work 70

5.2.6 Duration Working in Malaysia 71

5.2.7 Follow Rules before Working in Malaysia 72

5.2.8 Knowledge Level about Responsible on work 73

5.2.9 Knowledge Level about Rules During Works 74

5.2.10 Knowledge Level about Safety and Healthy During Work 75

5.2.11 Knowledge Level about cleanliness 76

5.2.12 Knowledge Level about Quality of Work 77

5.2.13 Knowledge Level about Training and Motivation 78
