ABSTRACT

The purpose of this study was to identify the organization awareness towards green office movement among Malaysian employees. The type of this research was descriptive research. This study was conducted at the government sector namely Yayasan Islam Terengganu. The total respondents that involved in this study were 50 respondents. The instrument used to collect the data was by using questionnaire that consist of four sections which were demographic (section A), organization awareness (section B), green office practices (section C) and 3R concept (section D). All the data that had been collected were analyzed by using Statistical Package in the Social Sciences Software (SPSS Version 20). The result showed that the overall mean for organization awareness was 3.02 which the result was moderate and not all of them practiced the green office. Other than that, the mean for green office practices was 3.86 which was the respondents tend to agree with the statements. Besides that, the mean for 3R concept was 3.52 which it also was moderate. The recommendations for practices at Yayasan Islam Terengganu were to organize more talks about green office and visit other organization that implement green office. Meanwhile, the recommendations for future research were expand the study to private sector, increase the number of respondents and conduct correlational research.
# TABLE OF CONTENTS

Abstract

Table of Contents

List of Tables

Acknowledgement

1.0 Introduction
   - Introduction 1 - 4
   - Statement of the Problem 4 - 5
   - Significant of the Study 5 - 6
   - Scope of the Study 7
   - Research Objective 7
   - Research Question 7
   - Definition of Terms 8 - 9

2.0 Literature Review
   - Introduction 10
   - Green Office Around the World 10 - 12
   - 3R Concept 13 - 14
   - Issues in 3R Concept 14

3.0 Methodology
   - Research design 15
   - Sampling Frame 15
   - Population 15
   - Sampling Technique 15
   - Sample Size 16
   - Unit of Analysis 16
   - Data Collection Procedure 16
   - Instrument Questionnaire 17
   - Validity of Instruments 17
   - Data Analysis 18

4.0 Data Findings
   - Survey Return Rate 19
   - Reliability of Measurement 20 - 21
   - Frequency and Mean 22 - 42

5.0 Conclusion and Recommendation
   - Conclusions 43 - 45
   - Recommendations 46 - 48

References 49 - 51

Appendices 52 - 70
