ABSTRACT

Tahfiz Al-Muqarrabin is a private school that teaches their students basic subject and also teaches the students in conquering Al-Quran and memorizing Al-Quran. It is a boarding school. Tahfiz Al-Muqarrabin is a new school and consist of a small community but involve parents from the country all over Malaysia. This situation has caused problems to the school and also to the community. Therefore, the decision to create this website is made. Waterfall model is used in order to help is creating this website. Waterfall model has five phases consist of requirement, design, implementation, verification and documentation. The website will allow teachers to register new students, register new subjects, register new activity, update data and also delete data. The website will also display the information about the school. As a conclusion, the website will help the school in reducing the problem faced by the school.

LIST OF TABLES		vi
ABSTRACT		vii
CHAPTER 1: Project Overview		1
1.1	Introduction	1
1.2	Problem Background	1
1.3	Problem Statement	2
1.4	Objectives	3
1.5	Scope	3
1.6	Significant	4
1.7	Research Methodology	5
1.8	Summary	10
CHAPTER 2: Literature Review		11
2.1	Introduction	11
2.2	Definition	11
2.2.1	Website	12
2.2.2	System	13
2.3	Tahfiz Al-Muqarrabin	14
2.4	Existing System in Tahfiz Al-Muqarrabin	16

2.5 System Development 17

2.6 System Management 19

2.7 Proposed Language to be used 21

2.8 Advantage for using a website 25

2.9 Summary 29

CHAPTER 3: Research Methodology 30

3.1 Introduction 30

3.2 Research Methodology 30

3.2.1 Research Framework 31

3.2.1.1 Knowledge Acquisition 34

3.2.1.1.1 Hypothesis of Study 34

3.2.1.1.2 Analysis 35

3.2.1.1.3 Literature Survey 39

3.2.1.1.4 Data Preparation 39

3.2.1.2 Prototype Design 40

3.2.1.3 Prototype Development 43

3.2.1.3.1 Website and System Development 43

3.2.1.3.2 System Testing 44

3.2.1.4 Documentation 45

3.2.2 Hardware and Software Requirement 46

3.3 Summary 47

CHAPTER 4: Result and Analysis

4.1 Introduction 48
