SUMMARY

Dress etiquette is a set of rules about what clothing may and may not be worn at a school, university, office, restaurants and so on. Dress etiquette are created out of social perceptions and norms, and vary based on purpose, circumstances and occasions. Different country, place, societies and cultures are likely to have different dress codes. In this report, it is shown the problem and the results of our investigation about dress etiquette in UiTM Kampus Pasir Gudang. The purpose of our investigation is to make sure the students follow the rules of dress etiquette that we called “Sahsiah Rupa Diri” and dressed in proper way. For UiTM rules, the students must follow the rules in dressed based on days, when going to class and in UiTM areas. The problems that most of the students doing are not display their matric card, wear tight slack/pants, male students not trimmed their hair neatly and female students wear tight shirts. “Sahsiah Rupa Diri” is a rules for students to teach them how to dress properly as looks like a professional students in university and also to improve their personalities and become disciplined students. For muslim, all muslim must follow the Islamic law rules by dressing well to cover their aurah. If the students apply dress etiquette in their life especially when in university, that can be a good image for the university. The methods that we are using in making our survey is through questionnaires form. So that, we will take an action in improving dress etiquette among UiTM Kampus Pasir Gudang students to give awareness to them about how importance is dress etiquette in their life basis.

1.0 INTRODUCTION

1.1 Background

Clothing can symbolizes the person personality, values and pure work ethics. The way a clean, neat and appropriate dress is emphasized to be practiced by all, especially to those who work as officers, staff and even students.

People are a lot into fashion nowadays, regardless of age and gender their always wearing something that in style for them to look fashionable. But some of them are not looking good like they wanted too. This is because they don't know what style or pattern that suits with their height and size of body. People should choose and wear something that suitable with them.

Besides that, rape case also had been increasing days by days. One of the factors that lead to this case is women wearing revealing clothing. In Islam, women had been asked to wear proper clothes like loose clothes and also cover their "aurat". This a little bit can help them from being the rape victims because their body is covered properly. But still this will not 100% can avoid women from getting rape. So wearing an unrevealing and not tight clothes will help to reduce this problems.

Furthermore, in University Technology Mara (UiTM) it have its own dress code or called as "Sahsiah Rupa Diri (SRD)". Students should follow the dress code so that they can become more disciplined and a good students by follow the rules that have been set. Other than that, UiTM also will looks harmonious and neat. But the problem is had some students that do not follow the dress code or SRD that had been set by UiTM such as hair for the men are long, wearing hat and slippers to class. For women, wearing sheer and tight clothes. Not following the rules will lead to an undisciplined students and will make the university look bad.

In conclusion, the code of application that has been outlined, should be followed for comfort and safety of all. Not just clothing can show the person identity but it also brings the image of the organization in which you serve.
