## **ACKNOWLEDGEMENT**

“In the name of Allah SWT, the Merciful and Beneficent”

Praise be to Allah S.W.T for the blessing and giving me the strength and health to complete this project paper. First and foremost, I would like to thank you my kindness advisor, PUAN SURAYA BT HUSIN and my second examiner PUAN NORSILAWATI BT MOHD HASSAN for their invaluable advice, comments and constant guidance during the progress of my project paper.

Sincere appreciations to my beloved family, especially my parents who are give full supports and encouragement in the process to finish this project paper. Last but not least, special thanks to all beloved friends who are shared their experiences, time and commitment in finishing this report.

No such valuable words than “Thank You” to appreciate your eagerness and kindness. More than words could express on paper or could be spoken in words. Hopefully this research project would be guidance in future. Therefore to remember your kindness would always be my pleasure.

Thank You.

## **ABSTRACT**

This goal of research is to examine achieving security and provides an update on progress in implementing sustainable agricultural for food providing in Malaysia. It have discussed what the factors that influencing food security. Such that, population growth, infrastructure and rice production. This study is also aimed to government initiative to reduce total export of food to the foreign nation.
