INTRODUCTION OF MALAYSIAN RUBBER BOARD

The Malaysian Rubber Board (MRB) is the custodian of the rubber industry in Malaysia. Established on 1 January 1998, it has under its fold three well established agencies (RRIM, MRRDB and MRELB), which are now merged into one, which have contributed significantly to the development of the rubber industry for the last 78 years. The Research & Development excellence in Natural Rubber, accomplished by the

Rubber Research Institute of Malaysia (RRIM), has had an impact on the Malaysian NR industry and other NR producing countries.

The primary objective of MRB is to assist in the development and modernisation of the Malaysian rubber industry in all aspects from cultivation of the rubber tree, the extraction and processing of its raw rubber, the manufacture of rubber products and the marketing of rubber and rubber products.
