Universiti Teknologi MARA

Self-Assessment Tax System: Survey Evidence from the Academicians, UiTM Shah Alam.

Norazah Md Azali

This thesis is submitted in partial fulfillment of the requirements for the degree of Master of Accountancy Faculty of Accountancy

April 2006
ACKNOWLEDGEMENTS

First and foremost, my deepest gratitude goes to my supervisor, Dr Lai Ming Ling for her valuable insights, comments and suggestions throughout the process of writing this thesis. Her time, dedication and patience are indeed very much appreciated.

I would also like to thank Prof. Dr. Ibrahim Kamal Abdul Rahman, the Dean of the Faculty of Accountancy for providing a conducive environment and the facilities needed to conduct this study. I would also wish to thank Jabatan Pembangunan Sumber Manusia (Bahagian Latihan dan Pembangunan Staf), Universiti Teknologi MARA for granting the scholarship to pursue this study.

Last but not least, I wish to express my deepest affection for my family whose support and patience are undoubtedly vital to the completion of this dissertation.

#### CHAPTER ONE  INTRODUCTION

1.1 Introduction and Background of the Study   1  
1.2 Problem Statement                         3  
1.3 Research Objectives                       4  
1.4 Significance of the Study                 4  
1.5 Scope of the Study                        4  
1.6 Organization of the Chapters              5  

#### CHAPTER TWO  LITERATURE REVIEW

2.1 Introduction                              6  
2.2 Self-Assessment Tax System: An Overview   6  
2.3 Taxpayers’ Responsibility in the Self-Assessment Tax System 7  
2.4 The Importance of Tax Knowledge and Education in the Era of SAS 10  
2.4.1 Why tax knowledge is important         10  
2.4.2 Tax knowledge influence taxpayer’s attitude 11  
2.4.3 Taxpayers’ level of awareness           13

CHAPTER THREE RESEARCH METHODOLOGY

3.1 Introduction 18
3.2 The Sampling Design 18
3.3 Survey Instrument 19
3.4 Data Collection 21
3.5 Analysis of Respondents 22
   3.5.1 Checking for the Accuracy of Data Entry 22
   3.5.2 Response Bias 23
   3.5.3 Non-Response Bias 24
   3.5.4 Assessing Normality 26
   3.5.5 Data Analysis Strategies 27
3.6 Summary 28

CHAPTER FOUR DATA ANALYSIS

4.1 Introduction 29
4.2 The Respondents’ Profiles 29
4.3 Awareness of the Self-Assessment Tax System 32
4.4 Understanding the Concept of SAS 37
4.5 Basic Tax Knowledge on Personal Taxation and Real Property Gain Tax 42
4.6 Taxpayers’ Experience In the First Year of Implementation of SAS 46
4.7 Introduction of Tax Education in the Non-Accounting Faculties 49
4.8 Summary 51
ABSTRACT

The implementation of the self-assessment tax system (SAS) by the Inland Revenue Board Malaysia (IRB) for salaried individual taxpayers in the year of assessment 2004 requires the taxpayers to compute their own tax liabilities. Hence, the taxpayers must have a certain level of tax knowledge and tax literacy in discharging his/her duties as a taxpayer. At the time of this study, little is known about the tax literacy and experience of non-accounting academicians in completing the tax return form in the era of SAS. In response, this study has emerged to fill a research gap. This study aims to i) assess the tax knowledge of the non-accounting academicians in UiTM ii) examine the non-accounting academicians’ response towards the implementation of the self-assessment tax system and iii) seek the opinions from the non-accounting academicians on the introduction of tax education in their faculties A survey was used to collect the data from 6 non-accounting faculties at the Universiti Teknologi MARA Shah Alam campus. 685 questionnaires were distributed and the response rate was 27.3% (187/685).

The findings indicate that most of the respondents were aware of the implementation of SAS and about 58% of the respondents had a high level of understanding of the concept of SAS. The findings revealed that the respondents were in favour of a tax subject be introduced at their faculties. The findings of the study will enable the authorities to review the tax education program in higher learning institutions. Essentially, this study provides useful insights for the UiTM management on the importance of tax subjects to be introduced in educating the non-Accounting students who are the future taxpayers.
