ACKNOWLEDGEMENT

Completing this research was a challenging task for me. However, fortunately, we had help of many parties who have made this task success. All parties involved in the completion of this research kept us motivated and on the course during all those moments' when things did not go as planned. We would like to express my gratitude to our supervisor, Mr Rahezzal Shah who taught me many things about research and always give positive mind-set which she did not tell me that it would be difficult. We learn valuable lesson about research in action. Things did not go as expected or planned.. Thank you for the support, patience and ideas in assisting us with this project.

Our appreciation goes to Taman Indah Permai, Sepanggar residents who had given us a cooperation to ensure this project become success.

We would like to thanks the lecturer who taught us many things about research but did not tell us that it would be this difficult. We learn a valuable lesson about research in action. We would like thank Allah S.W.T without whose blessing we will not have successfully completed this study.

Children's Freedom of Speech has been seen differently here especially in Malaysia. It is become a culture that a children should follow the rule and regulation set out in the family. Thus, children rarely had given the opportunity to speak up for their rights and freely in decision making. There are some situation that children are not allowed to enter any platform to increase their confidence and self-esteem. Therefore, this study examines the people's perception on children freedom of speech and how the parental behavior determines the people's perception. By understanding the children development, is there exist of opportunity for people's changes their perception toward children freedom of speech.
