

PRODUCTION AND EXPORT MARKET OF MALAYSIAN PLYWOOD.

By

MOHD FAZLI BIN JOHARI

**Final Project Paper Submitted in Partial Fulfillment for the
Diploma in Wood Industries, Faculty of Applied Science
University Technology Mara**

November 2000

ACKNOWLEDGEMENTS

As the author, I would to convey a very grateful appreciation to Allah the god of the universe. I also would like to acknowledge my gratitude to all the authors listed in the bibliography for ideas, inspiration and guidance. My special thanks is dedicated to the lecturer of this subject (*Final Project Paper –WTE 375*), Assoc. Prof. Dr. Jamaludin Kasim, also known as ‘Dr. J’ or ‘Dr. Jem’ among the wood industry student at UiTM Pahang (Universiti Teknologi MARA), to Assoc. Prof. Dr. Suhaimi Muhammed (the lecturer of WTE 265) known as ‘Dr. S’ among his student for his invalvasce assistance, caurage and cooperation as my adviser and last but not least to all my friends who have give me support and assitance towards the completion of this Final Project Paper. May the Allah blessings and favour of be upon all of you.

ABSTRACT

This research was made to monitor the progress of the export markets of Malaysian plywood it was been focused only from the year 1991 to the year 1999. As we can see from the year 1991 until in the middle of the year 1996 the export market of plywood was being increase manually but sometimes it being calm because of several factor. But after the middle of 1997 the export market was badly decrease, it happen because of several factor like the economic crisis, the competition from our neighborhood countries and don't have an enough raw material for the plywood manufacturing.

The other reason of making this research is also to determine the problem that existing in the plywood manufacturing and the best way to solve it.
