ACKNOWLEDGEMENTS

I would like to thank Associate Professor Abdul. Jalil because of being willing advisor and also giving me support, corporation and advice until my project paper is done successfully. I also feel very proud of the efforts made by MTIB, FRIM staffs in helping me to find some information that are relevant with my project paper. I would like to take this opportunity to thank my family who always giving their support and prayer for my success.

Not forgetting, I would like to thank all staffs Al- Bukhari library for leading a helping hand and guiding me to find references. Also to my roommate who always gives their support.

Finally, I would like to offer my sincere thanks to all my good friends for helping in preparation of this report.

Thank you very much.

Nasif Bin Akub

ABSTRACT

Sawmill industries in Malaysia for now, if we are looking such as operations, production, marketing and problems in sawmill can be solved successfully. Sawmill Information System (SIS) which can change the old process involved and many more process depend which on the SIS make it easy and more efficient.
