APRIL 2001

Malaysia Particleboard has received good response from local and overseas market. Particleboard have many uses especially for furniture. Beside that , the materials for particleboard can be found easily and the cost manufacture are low. This literature review is to inform the status of the particleboard in Malaysia. The demand for particleboard is very higher than other wood product. The major export destination for the particleboard are China , India , Indonesia , Japan , South Korea , Philippines and many more .
