## International Exchange Students KMITL-UiTM : Fostering Interdisciplinary Excellence

**\*Amirul Hakim Bin Zulkifli, Hasiful Fata Bin Talhah, Shahrool Rezza Bin Salim**

We are delighted to introduce one of our collaborative programs between **King Mongkut's Institute of Technology Ladkrabang (KMITL), Thailand** and **Universiti Teknologi MARA (UiTM) Pulau Pinang Branch** that was held on May 25 to June 2023. It was designed to enhance interdisciplinary learning, research, and innovation. This innovative partnership has brought together the strengths and expertise of both universities in creating a dynamic academic environment that benefits not only students and institutions, but communities of both countries.

The perks of the programme include:

- Promoting interdisciplinary collaboration between students and faculty,
- Facilitating joint research projects and academic initiatives.
- Enhancing international exposure and cultural exchange opportunities.
- Strengthening academic programs through shared resources and expertise.

Final products ( pavlova ) were prepared by **KMITL-UiTM** students

Hands-on class in progress

A total of four (4) passionate students from School of Food Industry **KMITL** have had the golden opportunity to join Pastry and Confectionary hands-on course. They have attended the course every week to experience the production of desserts together with bachelor's students of Culinary Arts Management of UiTM CPP . Since they are studying on Food Manufacturing Engineering, it complements their knowledge with baking skill to produce the best pastry products. Moreover, it has also fostered cross-cultural friendship and understanding between both universities.

This program represents a significant step forward in advancing interdisciplinary education, research, and global perspectives. We hope more and more foreign universities will join the bandwagon to engage in this exciting initiative, as it opens doors to new opportunities and horizons.
