## **ABSTRACT**

Europe is the largest continent in the world and it conquer the largest market in the world. To enter this Europe market, we must make same review and analysis about the Europe market. We must look from the aspect of development, economic and their needs. Our country rich with forest resources such as timber. This resources can be export to the foreign country and can get good income. Before exported the resources to the Europe, we must have CE Marking. To have this mark our product must follow the standard. But there are some issue that can affect our market to Europe. My project paper consist of all about the Europe Market.
