## CHAPTER

<b>1</b>	<b>Chapter 1</b>	
	1.0 Introduction.....	1
	1.1 Objectives.....	4
<b>2</b>	<b>Chapter 2</b>	
	2.0 Review Of Literature.....	5
	2.1 Cause of fungi.....	9
<b>3</b>	<b>Chapter 3</b>	
	3.0 Type of Stain.....	10
	3.1.1 Fungal Stain.....	10
	3.1.2 Chemical Stain.....	11
	3.1.3 Mineral Stain.....	12
	3.2Example of Sap Stain fungi.....	13
	3.2.1 Certatocystis spp.....	13
	3.2.2 Lasiodiplodia (Botryodipdia) theobromae.....	17
	3.3 Example of Fungi Causing Blue Stain in Services.....	17
	3.3.1 Aureobasidium pullulans.....	17
	3.3.2 Cladosporium herbarum.....	18
	3.3.3 Alternaria alternate.....	18
	3.3.4 Stemphylium spp.....	19
	3.4 Factor Influencing of Fungal Staining.....	20
	3.4.1 Temperature.....	20
	3.4.2 Moisture and Oxygen Requirements.....	21
	3.4.3 Nutritional Requirements.....	23
	3.4.4 Types of Wood Attacked.....	23

<b>4</b>	<b>Chapter 4</b>	
	4.0 Effect of Sap Stain on Wood or Timber properties.....	24
	4.1 Sap Stain effect on physical properties.....	24
	4.2 Effect on Strength Properties.....	24
	4.3 Effect on Permeability Characteristic.....	25
	4.4 Effect on Mechanical Properties.....	26
	4.5 Effect on Moisture loss and uptake.....	27
	4.6 Effect on decay resistance.....	28
<b>5</b>	<b>Chapter 5</b>	
	5.0 Sap Stain Controls.....	30
	5.1.1 Sap Stain Control by Rapid Drying.....	30
	5.1.2 Chemical Treatment.....	32
	5.1.3 Chemical Spray .....	33
	5.1.4 Water Spray System.....	35
	5.1.5 Inventory Control.....	37
	5.1.6 Piling Procedures .....	38
	5.2 The Preventions of Fungal Stain.....	40
	5.2.1 Prevention of Sap Stain During Transportation....	40
	5.2.2 Prevention of Log Stain .....	41
	5.2.3 Prevention of Sap Stain in Sawn Timber.....	43
<b>6</b>	<b>Chapter 6</b>	
	<b>CONCLUSION.....</b>	<b>44</b>

	<b>VITA.....</b>	<b>48</b>

## ACKNOWLEDGEMENT

First to all I want to thank the Almighty Allah S.W.T for His Blessing and strength rendered to me to complete my W.T.E 375 as my thesis project, without His Blessing I cannot complete my project for this subject.

In addition I also want to thank to my lecture Prof Madya Abdul Jalil Bin Ahmad as my advisor for this project and also to Prof Madya Dr Jamluddin Bin Kasim for the special encouragement, guidance and assigned orders to me for complete my project paper, with out his guide and lesson I cannot complete this project successful.

Lastly thank you so much to my family and my entire members for their support. Also thank you for person that is involve directly or in directly to complete my project paper. I hope this project paper will help other students to make a reference about sap stain fungi. Thank you very much.

*Thank You...*

## **ABSTRACT**

Sap stain fungi that occur in timber and timber product is a problem among the companies that produce the product from timber. Sap stain fungi will effect the surface of the timbers or logs or strongly damage their appearance. In addition sap stain fungi will incur big loss to the companies that produce the timber product. Several methods were used by researchers to decrease or avoid this problem. Therefore a lot of money was used, also the chemical that they used can effect our environment. These problems still occur until now, even though damage by sap stain fungi in timber was studied centuries ago.
