ACKNOWLEDGEMENTS

This thesis become a reality with the kind support and help of many individuals, I would like to extend my sincere thanks to all of them. I would like to express my special gratitude and thanks to my adviser, Madam Yvonne Joseph Ason for imparting her knowledge and expertise in this study. I am grateful to her for the guidance, encouragement, understanding and insightful support in the process to finish this study.

I would like to express my gratitude towards my family for the encouragement which helped me in completion of this paper. Thank you to my greatest father and my mother, who always give support in my study until I can reach this point. Thank you being supportive parents.

Besides, I am also thankful to my classmate. All knowledge and opinion that really helpful to finish this thesis makes us needed each other until we can achieve this stage. Without them, it will be difficult for me to finish this paper.

Last but not least, I would like to mention here that I am greatly indebted and everybody who has been associated with my project at any stage but whose name does not find a place in this acknowledgement.
