## ACKNOWLEDGEMENT

First, I would like to take this opportunity to thank all those who have helped in this research project and making it a success. I would also like to express my greatest gratitude to our supervisor, Mr. Marius Benedict for his great support, guidance, advice and patience who never turn me down despite of his busy schedule. Without his support and guidance, I will be lost in direction. Second, we appreciate our second examiner Mrs Yvonne, who gave precious comments on my Final Year Project so I can further improve my work. Moreover, I would like to thank Universiti Teknologi Mara for providing the facilities to ease the progress of my project. Besides, we would also like to thank to lecturers who have taught me in different subjects. Last but not least, we would also thank our friends and family members for providing support mentally and physically, throughout this project.

## **ABSTRACT**

This research is conducted to enhance the knowledge about crude oil price, money supplies towards stock price and stock index. It contains a study in which tests the impact of crude oil price, money supplies towards the stock index and stock price. Samples of 30 companies Listed in the Main Board of Bursa Malaysia are selected ranging from the year 1996 to 2016 and will be run by Statistical and Data Analysis Software. The result as can see in the chapter 4, crude oil price and money supply 1 having a positive significant towards stock index but money supply 2 and money supply 3 there is negative significant towards stock index. Meanwhile, crude oil price and money supplies there is no significant towards the stock price.
