ABSTRACT

One of the subjects that students must take in order to complete diploma studies is industrial training. This report consists of students' experiences in industrial training at UNIT RESIDENSI & HOSPITALITI PELAJAR (URHP) UiTM Negeri Sembilan Branch, Rembau Campus. The industrial training starting from July - September 2024. This report discussed the experiences such as problem-solving, teamwork, communication, and time management. Throughout the training period, students are tasked with handling real-world projects, working closely with professionals, and navigating the challenges of a professional environment. Additionally, industrial training fosters professional growth, offering students valuable insights into workplace dynamics, organizational structures, and industry standards.

Keywords: *industrial training, organization, management, professional*
