WOOD WASTE MANAGEMENT IN MALAYSIA

BY

Hairani bt Abdul Majid

April 2002

ABSTRACT

The sources of wood waste management in Malaysia are always from waste of factories, forest logging and also from plantation waste. Wood waste can be divided into bulk and particle waste. All of these are under the Ministry of Environment and Forestry Department.

ACKNOWLEDGEMENT

The author wishes to thank the following for their keen interest and assistance in making this final project possible; for useful comments and suggestions; Miss Mazlin bt Kusin, Associate Professor Dr. Jamaludin bin Kasim and Mr Wan Mohd Nazri bin Wan Abdul Rahman. For information; the libraries of MARA University of Technology, Pahang Branch. For technical services; Aza Azmima Anuar and Azwan bin Norul Anhar.
