ACKNOWLEDGEMENT

Completing this research was a challenging project for us. However fortunately we had the help of many parties that made this project less difficult. Special recognition goes to Cik Khairiyah binti Hj. Md Shahid, our research supervisor. She keep us motivated and on course during all this moment. We were delay with the questionnaire that not returns on time. We thank her sincerely for being there in our moments of needs.

We would like to thank to our lecturer who taught us many things about research but did not tell us that it would be this difficult especially to Tuan Hj. Syawal bin Kaslam. We learn valuable lesson about research in action. Thinks do not go as expected or planned. We have to make adjustment and this adjustment must be justified and qualified. We also like to acknowledge all individual with whom we work and all the people who have participated in the completion of this research.

Norsazila binti Ramli

ABSTRACT

Information technology (IT) is a broad subject concerned with technology and other aspects of managing and processing information, especially in large organizations. Internet use in an organization to retrieve information, find colleague to exchange thought and idea and enhance the knowledge with then information provided. Parallel with the advancement of technology, most of the higher learning institution enhances their IT system. Now registration to subject in Universiti Teknologi Mara (UiTM) were done online which reduce the cost of printing the form and decrease the use of paper that serve the environmental policy in UiTM. Internet becoming sources of information consists of no transboundary law to be trespass in order to see other organization or country policy and activities. The research conducted to seek whether Internet has an impact in enhancing bachelor student's knowledge especially for the Bumiputera students, the role plays by Internet as medium of learning that can help students in their studies an also the capacity of computer facilities provided by UiTM as to achieve this research objective. Therefore, as UiTM have a great number of Bumiputera students, it has been chosen as a place to conducting this research research.

Table of contents

	Page
Chapter 1: Introduction	
1.1 Introduction	1
1.2 Problem statement	3
1.4 Research question	
1.5 Research objectives	4
1.6 Scope of the study	
1.7 Significance of the study	
1.8 Limitation of study	6
1.9 Definition of terms/concepts	
1.10 Chapter outline	9
 Chapter 2: Literature Review & Conceptual Framework	
2.1 Introduction	11
2.1.1 Information Communication Technology (ICT)	
2.1.2 Internet	15
2.1.3 Knowledge	25
2.1.4 Wireless networking	33
2.2 Theoretical Framework	38
2.2.1 Independent variable	
2.2.2 Dependent variable
