

**UNIVERSITI TEKNOLOGI MARA****LAS682: URBAN FOREST AND MANAGEMENT**

Course Name (English)	URBAN FOREST AND MANAGEMENT APPROVED	
Course Code	LAS682	
MQF Credit	2	
Course Description	The course is founded on the premise that whilst ecological processes of an area be maintained and managed over a period of time, it must, at the same time, accommodate human use and occupancy of the area. Thus, it concerns the forested ecosystems dominated by human activities within the environs of the cities, towns, and other developed areas. The course applies an ecological approach to the management of the urban forest as a whole rather than concentrating on individual tree or stand based on the interrelationship between natural systems and healthy and sustainable community.	
Transferable Skills	Demonstrate knowledge and skills in managing urban forest	
Teaching Methodologies	Lectures, Tutorial	
CLO	CLO1 Apply the scientific knowledge and practical know how in urban forestry within the complexity of urban environment CLO2 Develop the knowledge of urban forestry for multiple benefits in managing urban forest.	
Pre-Requisite Courses	No course recommendations	
Reading List	Recommended Text	<ul style="list-style-type: none">• Abd. Haris bin Shamsuddin 2016, <i>Introduction to Urban Forest and Management</i>, LAS682 Coursepack• Konijnendijk, Cecil C.; Nilsson, Kjell; Randrup, Thomas B. and Schipperijn, Jasper (Eds.) 2005, <i>Urban Forests and Trees: A Reference Book.</i>, Springer• Lilly, Sharon J 2001, <i>Arborists' Certification Study Guide</i>, International Society of Arboriculture
