

**UNIVERSITI TEKNOLOGI MARA****LAS688: VERNACULAR HISTORY OF LANDSCAPE ARCHITECTURE**

Course Name (English)	VERNACULAR HISTORY OF LANDSCAPE ARCHITECTURE APPROVED	
Course Code	LAS688	
MQF Credit	2	
Course Description	Due to lack of materials directly related to the evolution of Malaysia landscape, the course uses materials from the nation's social and political history to interpret the factors that formed the country's landscape. Thus, the course uses class reading, interpretation, and discussion to examine the evolution of 'design on land' in the country. The course is structured in three parts: the first part focuses on the genesis of the humanized landscape in the old country; the second on the colonised landscape during Portuguese, Dutch, English, and Japanese regimes; and the third on landscape development in the post-colonial era till the present.	
Transferable Skills	Apply the knowledge learned in this course into other design course	
Teaching Methodologies	Lectures, Seminar/Colloquium, Case Study	
CLO	CLO1 Demonstrate a clear understanding and appreciation the layers of history, from pre-history to present time, in the Malaysia landscape. CLO2 Able to read and interpret Malaysia landscape at the local and regional scale and integrate the factors that contribute to the formation of Malaysia landscape.	
Pre-Requisite Courses	No course recommendations
