### RECOGNITION

Green Sustainable Campus Awards (AKLH) 2021	48
TIMES for Higher Education Awards UiTM 2021	51
10th Premier of Sarawak Environmental Award 2021/2022	52
Green Sustainable Campus Award (AKKH) 2022	53

Conclusion	54
List of Committed Writers	55
Editorial Board Members	57

# The Organisation's Core Business

The fact that everyone should be able to acquire a solid education reaffirms the belief that education is one of the most potent and proven instruments for long-term progress. Sustainable Development Goals (SDG) 2030 is designed to ensure that all girls and boys are given access to a free primary and secondary education. It also intends to ensure that everyone has equal access to inexpensive vocational training, to eliminate gender and economic disparities, and to ensure that everyone gets a decent higher education. UiTM Sarawak is committed in achieving the SDG by doing all in its power to enhance the quality of education it provides, to undertake research with a substantial impact, to manage effective and efficient operations and governance, and to develop its external leadership. Furthermore, the university emphasises on integrating the Sustainable Development Goals and Education for Sustainable Development (ESD) into all its academic programmes, promoting UiTM and national education policies which promote SDG education, and increasing students' participation in supporting SDG learning as part of their education commitment.

The university's involvement in ensuring that the individuals get a decent higher education is mostly dependent on the opportunities provided through student enrolment and the diversity of programmes offered by the university. Currently, the university offers 44 different programmes to potential students. Despite the outbreak of Covid-19, the university has observed an upsurge in the number of students enrolling in the variety of programmes. The number of students enrolled, for example, had increased by 1.42 percent, from 9151 in 2019 to 9283 in 2020. Furthermore, in order to provide more possibilities for individuals to get a decent higher education, the university organised Ekspo Maya Selangkah ke UiTM on the 13th and 14th of June last year for two days. The event was held to replace the Ekspo Selangkah ke UiTM yearly event. The initiative has demonstrated the university's dedication to improve possibilities for decent and quality higher education. In 2021, the number of graduates listed for its 94th and 95th convocation ceremony is 2,827 graduates.
