ABSTRACT

The purpose of this paper is to investigate the relationship between capital structure and firm performance. The sample of this study is consisting of 20 listed Construction firms in Bursa Malaysia from year 2009 to 2018. This study use three variables as the measurement of capital structure which is short term debt to total assets (SDTA), long term debt to total asset (LDTA) and debt to equity (DE) as the independent variable, while financial performance only measure by the return on assets (ROA) as the dependent variable. The data are collected through the Bloomberg of data base. Multiple regression analysis was the method being used in this study to determine the relationship between the variable on this study. From the multiple regression analysis, only debt to equity and short term debt has significant effect on the return on asset, while long term debt to total asset has insignificant with the dependent variable.

ACKNOWLEDGEMENT

First of all, I wish to thank God for giving me the opportunity to finish my study in Universiti Teknologi Mara (UiTM) on Bachelor of Business Administration (HONS) Finance. I also want to give thanks to him because give me courage, patient and strength in completing this paper project. Without his blessing, I may not be able to complete this research study.

I also want to show my gratitude towards my advisor Sir Amirrul Muhminin Bin Darussamin who always gives me knowledge on completing this task. He also always guides me on making this paper from the beginning until it finish. I also want to thanks to my previous lectures Sir Jasman Tuyon and Sir Hylmee Matahir who teach me the subject of research on Quantitative Research Method.

My appreciation goes to my beloved parents and families who always supporting me on finishing my study and give me a strength on completing this paper. They also always give me a moral support and financial support especially during my industrial training and in completing this research. They also always be there to encourages me and be there when I have a problem.

Finally, I would like to thanks to my friends and classmates who always responding and give information about this paper project to me. They also always give a guidelines to make me can complete this research.

LIST OF TABLES	ix
LIST OF SYMBOLS	x
LIST OF ABBREVIATIONS	x
CHAPTER ONE: INTRODUCTION	1
1.1 Introduction	1
1.2 Research Background	1
1.2.1 Overview of Construction Firm Listed in Bursa Malaysia	1
1.2.2 Review of Construction Firm Capital Structure in Malaysia	2
1.3 Problem Statement	3
1.4 Research Questions	5
1.5 Research Objectives	5
1.6 Significance of Study	6
1.7 Scope and Limitation of Study	7
1.8 Organization of Dissertation	7
CHAPTER TWO: LITERATURE REVIEW	10
2.1 Introduction	10
2.2 Modigliani and Miller Theory	10
2.3 Pecking Order Theory	11
2.4 Empirical Evidence	12

2.4.1	Debt to Equity Ratio	13
2.4.2	Short Term Debt to Total Asset Ratio	14
2.4.3	Long Term Debt to Total Assets Ratio	14
2.4.4	Return on Asset Ratio	15
2.5	Conceptual Framework	16
2.6	Hypotheses Development	16
2.7	Conclusion	17
CHAPTER THREE: RESEARCH METHODOLOGY		18
3.1	Introduction	18
3.2	Research Design	18
3.3	Data Collection Method	18
3.4	Empirical Model	20
3.5	Data Analysis	21
3.5.1	Descriptive Statistic	21
3.5.2	Breusch and Pagan Lagrangian Multiplier Test	21
3.5.3	Pooled Ordinary Least Square Method	22
3.5.4	Hausman Test	22
3.5.5	Diagnostic Test	22
3.5.6	Variance Inflation Factor Test	23
3.5.7	Modified Wald Test	23
3.5.8	Wooldridge Test	23
3.5.9	Pearson's Correlation Coefficient Test	24
3.6	Research Flow Estimation	25
3.7	Conclusion	26
CHAPTER FOUR: ANALYSIS AND FINDINGS		27
