EXECUTIVE SUMMARY

I completed my internship at Molnlycke Health Care Sdn. Bhd. in Kulim Hi- Tech from 1st March to 9th August 2024, where I was assigned to the Learning and Development Department under the supervision of Siti Marhainis Binti Mohamad. Our focus was on enhancing the skills and competencies of team members through various training programs and initiatives.

In addition, the department's role at Molnlycke Health Care is pivotal in enhancing the skills, knowledge, and competencies of the workforce. My Responsibilities included designing, developing, and implementing training programs aligned with the company's strategic goals, covering technical skills, leadership development, and personal growth. Moreover, I facilitated onboarding and orientation for new hires, supported performance management and identified skill gaps.

Overall, my internship at Molnlycke Health Care provided an exceptional opportunity for personal and professional development. Engaging in diverse projects and collaborating across teams has greatly enriched my knowledge. This experience not only reinforced my academic foundation but also deepened my enthusiasm for the Human Resources field, solidifying my commitment to pursuing a career in this dynamic domain.

ABOUT COMPANY

Mölnlycke Health Care is an international medical solutions company specializing in the development and provision of innovative products for wound care, surgical solutions, and infection prevention. Established in Sweden in 1849, Mölnlycke has become a prominent leader in advanced wound care and single-use surgical products. The company is committed to enhancing patient and healthcare professional outcomes on a global scale

In Malaysia, Mölnlycke Health Care was initially established as LRC Hospital Products Sdn. Bhd. in 1990. Over time, it transitioned through names such as Regent Hospital Products Sdn. Bhd. before adopting its current name. The subsidiary operates four manufacturing facilities located in Kulim, Kulim Hi-Tech and Kuala Ketil, Kedah, as well as Batang Kali, Selangor. Biogel gloves are manufactured at production sites located in Kulim Hi-Tech (KH), Kulim Lama (KM), and Batang Kali (BK). Upon completion, the gloves are transported to Kuala Ketil (KK) for inspection to identify any defects or punctures. Currently, Mölnlycke Malaysia employs approximately 2,342 individuals, encompassing both blue-collar and white-collar workers.
