RECORD MANAGEMENT

4TH FEBRUARY 2015 – 30TH JUNE 2015

ABSTRACT

The report contains information about the internship in SPRM (SURUHANJAYA PENCEGAHAN RASUAH MALAYSIA) in 5 month from the February to June 2015. The report recorded all the work that I been done in that organization. The also recorded the EKSA Project to be establish by me and my partner during 5 month in the training industry in this organization. Manage the housekeeping file by sorting and filing the documents, made a simple listing of the housekeeping document that have been sort and arranged in Microsoft Word, and the last activities is sorting and arranged the dossier in vault according to the year for the staff doing the disposition for the non-active dossier. Besides that, my special project is Arrangement of Docket at Records Management and Information Technology Division, Malaysian Anti-Corruption Commission (MACC). The purpose of the project is to assist the staff to find the docket when they want to use it, and as a guide for the staffs to locate the dockets by providing the color labeling near the dockets. By applying the applications of knowledge, skills and experience, I gain the experience on how to working in the real situations. There are also the lesson learn from the industrial training such as learn independently without expecting others, learn to respect others, and must have the skills when doing the task. Finally, there are also the limitations and recommendations that are stated in the report.
