PETROFAC (MALAYSIA-PM304) LIMITED

Executive Summary

Executive summary for this report is about my 6 month industrial training at Petrofac Malaysia within Human Resources and Administration Department. Duration of my internship was 6 month which is started on 1st March 2024 until 9th August 2024. This is internship is one of the most important requirement in my studies in Human Resources Management for this semester.

Following the placement for industrial training, students are urged to take part in all activities and fulfill all duties related to their industrial training experience. Students will be able to demonstrate their abilities and get them ready for areal working environment in the future.

About Petrofac Malaysia

One of PETRONAS's Production Sharing Contract (PSC) operators, Petrofac Malaysia (PMY), has a 35.3% working interest in Block PM304, one of Malaysia's major oil fields. In a joint venture with Kuwait Foreign Petroleum Exploration Company (KUFPEC) and Petronas Carigali Sdn Bhd (PCSB), PMY is designated as the operator for petroleum activities encompassing field development, production, abandonment, and exploration for Block PM304.

With an emphasis on managing and developing hydrocarbon resources, Petrofac (Malaysia-PM304) Limited, a subsidiary of the global oil and gas service provider Petrofac, operates in Malaysia. This corporation works hard to explore, develop, and produce gas and oil, especially in the offshore PM304 block that includes areas including Cendor, West Desaru, and Irama. Petrofac (Malaysia-PM304) Limited works in partnership with local partners and a range of oil and gas corporations to maximize resource development and exchange knowledge and technology.

The organization manages complicated onshore and offshore projects utilizing cutting-edge technology and procedures to guarantee effective and secure operations. It does this by using its engineering, procurement, construction, and commissioning (EPCC) skills.

Petrofac is also dedicated to creating local content by hiring and educating local workers, supporting the community's economy, and abiding by laws and norms in Malaysia. Along with minimizing its environmental impact, ensuring operational safety, and supporting the communities in which it operates, the company also prioritizes sustainable practices. Petrofac (Malaysia-PM304) Limited, a major participant in the oil and gas industry, substantially contributes to the nation's energy output and economic expansion.

1

Mission

To be the preferred services partner to the energy industry, delivering engineering, procurement, construction, and production solutions in a sustainable and safe manner.

2

Vision

To be the most admired and respected services company in the energy sector, known for its operational excellence, technical expertise, and commitment to safety and sustainability.
