1.1 EXECUTIVE SUMMARY

Aqua Tiger Prawn Sdn.Bhd is our company brand name which is located at Kampung Tanjung Bangau, Kudat. Our company will run an aquaculture business that is fresh water tiger prawn which will give profit to our company later. We are running partnership businesses which are consist of 5 members and 4 other non-member workers.

Every one of us will contribute RM24000.00 in form of cash and asset such as land, building, desktop, car, printer and others. Thus, our contribution is RM120, 000.00 and we are estimating that we will need a loan from Agro Bank to add on our capital. Our future planning is to increase our production of tiger prawn and to enlarge our area of culturing to fulfill the demand in the market.

As a fresh graduate, we are hoping that our business project will be success for the next three years and will earn a good profit. Other than that, we are hoping that we will gain a great experience and new knowledge while running our business.

Customer is our priority
