ABSTRACT

The research, titled "Provision of Facilities for People with Disabilities Provided at Local Park in Ipoh, Perak," aims to determine whether the local recreational parks in Ipoh, Perak comply with the Universal Design guideline for Local Recreational Parks regarding the facilities provided for people with disabilities (PwDs). The purpose of the findings is to highlight areas that require improvement and provide useful data regarding how well the current facilities are complied with Universal Design guidelines for Local Recreational Park. Promoting equal participation and enjoyment for all members of the community, including those with disabilities. This research seeks to determine the range of facilities accessible to people with disabilities (PwDs) at these parks, as well as their actual availability and condition. Additionally, the research will explore the extent to which these facilities comply to Universal Design Guidelines for Local Recreational Park. Through the use of direct observation, the research allows for a comprehensive and methodical evaluation of the condition of on-site facilities. In addition to identifying particular difficulties and constraints faced by PwDs in accessing and using these outdoor spaces, this method offers a thorough overview of the current situation regarding accessibility at the local parks in Ipoh, Perak.

Keywords: Disabled facilities; Facilities; Local recreational park; Universal Design Guidelines

ACKNOWLEDGEMENT

Alhamdulillah first of all, I would like to thank God as finally I am able to finish my final year project. With high gratitude to ALLAH S.W.T the Most Merciful that gave me the ideas, mental and physical strength in preparing this research. Not to forget all my family especially and fellow friends for give me moral support. I also would like to express my appreciation to my supervisor Assoc. Prof. Madya Sr Dr Haryati Mohd Isa, for the guidance and support in order to complete this research. Besides, I appreciate all the valuable suggestion and the advice from my supervisor from time to time. With my supervisor's dedication, commitment, experience, knowledge, encouragement and help from her throughout the completion of my dissertation.

On the other hand, a big thank to Majlis Bandaraya Ipoh (MBI) and everybody that involve with the process in completing my dissertation directly and indirectly. I also want to take this opportunity to express my appreciation for those who willingly share their knowledge, information and experience with me.

Thank You.
