**(2011827064)**  
**Bachelor of Business Administration (Hons.)**  
**Human Resource Management**

## **Abstract**

The main purpose of this study is to determine the relationship between time orientation factors and procrastination among students of Human Resource Management in UiTM Kampus Bandaraya Melaka. The independent variables of this study consist of the elements of time perspective orientation which is Past-Positive, Past-Negative, Present- Hedonistic, Present-Fatalistic and Future Oriented. There are 260 respondents from the students of Human Resource Management in UiTM Kampus Bandaraya Melaka. This study use descriptive analysis and correlational analysis research method to find the relationship between dependent variable and independent variables. Furthermore, the researcher used questionnaire as the method to collect all the data from respondents in accomplishing the research objectives. Overall in this study, the findings indicate that the level of procrastination among the students is moderate meanwhile only past-negative orientation has a minor relationship with procrastination.

## **Acknowledgement**

Begin with Bismillahirrahmanirrahim, I would like to express my sincere gratitude to Allah SWT for giving me a good health, mental and physical strength, and inspiration to complete this study. Without the blessing of Allah, I am not able to complete this study successfully. Alhamdulillah once again that I was able to overcome all the difficulties and challenges in preparing my research title “Study of Relationship between Time Orientation Factors and Procrastination Among students of Human Resource Management in UiTM Kampus Bandaraya Melaka ”

I also would like to wish a million thank to my advisor, Ms. Fariha Aiza bt Ramly because she gave me many guidance and motivation to complete this study. Ms. Fariha has helped me to make sure everything is correct. I realize that it is not easy to set up research while undergoing Industrial Training. It is because I am fully committed to provide two things at one time. It was challenging and need to divide my time wisely to get great results for my final semester.

Thank you to my friends Norshila Muhammad On and Atiqah Azman, who has helped me to ensure the success of this study by sharing a lot of knowledge and contribute a good idea to my research so that I can perform better. Meanwhile, I would like to thanks to the students of Human Resource Management in UiTM KBM due to excellent cooperation with my research to answer the questionnaire. Without cooperation from their side, I was unable to successfully implement my research. Finally, special thanks to my beloved family for the continuous support for me intend to complete my research about the study relationship between time orientation factors and procrastination among students of Human Resource Management in UiTM Kampus Bandaraya Melaka.
