Abstract

Whiteboard

WDT is a 3 in 1 function whiteboard. The book shelf behind the whiteboard itself. It can be a LCD screen projector. It also can be written on it but the marks will instantly erase away if you erase the writings.

Book Shelf

WDT can be slide open. The book shelf behind whiteboard is used in case the sorting out of electricity happens.

Desk-Tab

It is designed for lecturers or teachers. It can connect with the whiteboard. For example, the lecturer doesn't need to stand up and write something on the whiteboard. They can easily type in something on the desk tab. It is wireless. So, it is easy to be used by lecturer. It also can recognize the lecturer's voice. So if a lecturer says things related to the topic itself, the note automatically exist on the whiteboard. All notes can be saved inside the desk tab, too!

Novelty and uniqueness: WDT is designed to facilitate the instructor in a classroom. Other than that, it also supports the interactive learning environment, and make student more focus in the lesson learned.

Keyword: Whiteboard, Digital whiteboard, and Desk-tab

Potential commercialization: High school, Primary school, and Institution of Higher Learnings.

Acknowledgment: Special thanks to HEA on the TAPA fund provided.
