## ACKNOWLEDGEMENT

“In the name of Allah the Most Gracious, the Most Merciful”

Praise to Allah S.W.T the Lord of the universe, for the wisdom, strength and blessings given to us in completing this project paper. Peace and blessing of Allah be upon His Messenger, Muhammad S.A.W.

First and foremost, we would like to give our appreciation towards our advisor, Madam Nur Hafidzah Binti Idris for helping us throughout the process of finishing our project paper. She has made a significant contribution and provided us with her analytical skills and timely response for the completion of this research.

Furthermore, I would like to give high appreciation to my second examiner, Madam Rohaiza Binti Kamis for her comments and guidance. Due to their encouraging comments I am able to improve my write up and complete this study very well.

Our special thanks goes to the members under the same advisor which is directly and indirectly involve in giving fully corporation and commitment by providing valuable information in making this research possible.

Last but not least, a very special thanks to our parents for their endless support as well as to all our wonderful classmates and all students of BBA (Hons) Finance. Thank you so much for sharing all the experiences. Our project paper might not be completed without cooperation received by the student.

## ABSTRACT

This study examines the relationship determination demand of Islamic home financing in Malaysia. This study approach to studies because the total of loan applied in Islamic banking increases starting on 2009. Base on the previous study, demand of loan in commercial bank can be determined with economic growth and money supply. This study conduct four variable which are gross domestic product, money supply M1, house price index, and interest rate. Based on the literature reviews GDP, M1 will be influence the demand of loan. This research worked was designed to cover the period 2007 until 2015 in which conducted quarterly for a period of 9 years. The multiple linear regression method and single linear regression method will be used for analysis the data result.
