ACKNOWLEDGEMENT

All praises to Allah s.w.t. whose help and guidance has sustained us to bring this research to completion.

We would like to express the appreciation especially to our beloved lecturer DrHalimahtonbtBorhan for her assistance and continuous guidance in making this research paper successful. We have full faith that whatever we have learned in this thesis will be beneficial in our future

To all of our colleagues who assisted us a lot either directly or indirectly involved in this research paper and to our family, who gave us so much help and support in completing this research paper, utmost gratitude be expressed to them.

Finally, thank you to our supervisor PnSitiNorhanimbHashim and Wong Suet Pengand for their sincere and kind help has really enhanced our spirit, determination and enthusiasm to go on with this project until the end. We truly and will always be indebted and grateful to them. Thank you for the most beautiful memories and words of encouragement.

Thank You.

ABSTRACT

The aim of this study is to investigate the impacts of Asian Financial Crisis towards Malaysian Economy. The study used Multiple Linear Regression in order to find the relationship among those variables. The yearly closing price of the data is collected from 1997 until 2007. It is conducted using 10 years period in order to get a reliable result. From the result, it reveals that only one variable have a significant relationship towards Malaysian economy. It means that there only a small relationships among this variables. These results further our understanding of the impacts of Asian Financial Crisis towards Malaysian economy should be useful for regulator, investor and speculator.
