

FACULTY OF PHARMACY SHOWCASES

"Pharmatopia"

AT SULAM@UiTM SHOWCASE 2025

By: Mdm. Nur Syazwani Taridi, Mdm. Nur Sabiha Md Hussin
Edited by: Assoc. Prof. Dr. Gurmeet Kaur Surindar Singh

Experiential education by aligning student activities with community need

The Faculty of Pharmacy, Universiti Teknologi MARA (UiTM) Puncak Alam proudly participated in the SULAM@UiTM Showcase 2025, held on 1st July 2025 at Dewan Seroja, UiTM Shah Alam. SULAM, which stands for Service-Learning Malaysia-University for Society, is an initiative developed by the Ministry of Higher Education (MoHE), Malaysia. This program aims to promote experiential education by aligning student activities with community needs, thereby enhancing the overall learning experience for students. SULAM@UiTM Showcase 2025 is a university-level event aimed to recognise the impactful contributions of students and academic staff in implementing high-quality SULAM projects. The showcase also served as a strategic platform to align SULAM implementation across UiTM campuses and to identify top projects to represent UiTM at the national SULAM Innovate competition under the MoHE.

This year's showcase brought together 86 teams from various faculties, academic centres, and UiTM branch campuses. Participants competed in two main categories which are Science and Technology and Social Sciences. The day began with the registration of participants followed by the much-anticipated pitching sessions and project evaluations by a panel of expert judges. The event continued with the official opening speech, a montage presentation and concluded with the SULAM@UiTM Showcase 2025 Awards Ceremony to celebrate outstanding projects from across the university.

Representing the faculty was an enthusiastic team of students, Ms. Nur Syazana Ab Rahman, Ms. Syarifah Nur Adriana Syed Abdullah and Ms. Nur Syafiqah Mohyidin under the guidance of dedicated advisors Madam Nur Sabiha Md Hussin and Madam Nur Syazwani Taridi. The team presented their community focused project entitled **“Pharmatopia: Empowering Young Minds Through Interactive Medicine Education”**. This project aimed to raise health literacy among school children by delivering engaging lessons on the safe use of medicine via interactive storytelling, games, and educational activities that may inspire young minds to become more informed and responsible about their health.

Our participation in the showcase provided an excellent platform to highlight the relevance of pharmacy education in community engagement. It also allowed students to enhance essential skills such as communication, leadership, and collaboration while making a tangible impact. We extend our sincere congratulations to the team and thank the organising committee for a well-executed and meaningful event. The Faculty of Pharmacy UiTM will remain committed to championing impactful SULAM initiatives that shape well-rounded, socially conscious graduates.
