On 12 September 2025, the Medi8or team from the Faculty of Pharmacy, Universiti Teknologi MARA (UiTM) Penang, achieved remarkable success at the UiTM KIK Convention 2025 (Northern Zone). The team comprised eight members: three academic staff and five supporting staff, including pharmacists and assistant pharmacists.

Their innovation project, titled **MyPharmRoute: A Digital One-Stop Centre for Diploma in Pharmacy Programme Information**, introduced a digital platform designed to centralise and simplify access to information on the Diploma in Pharmacy programme at UiTM Penang, Bertam Campus. This project aimed to address the issue of limited accessibility to programme details, identified as a key factor contributing to the declining trend in student applications.

Competing against six other teams from various UiTM northern branches, the Medi8or team secured four prestigious awards; the Gold Award, third place overall, Best Documentation and Best Presentation. The project successfully aligned with UiTM's Strategic Digitalisation Plan 2022-2025, enhancing the university's visibility among prospective students and parents while streamlining promotional efforts.

This recognition reflects the team's commitment and creativity in supporting academic outreach and institutional excellence. The Medi8or team extends their heartfelt gratitude and appreciation to the Faculty of Pharmacy's management and campus leadership for their continuous support and encouragement throughout this innovation journey.
