IMED 2021

NUR ASILLA HAZMAN
SEKRETARIAT MAHASISWA FAKULTI (SMF)

Every year Sekretariat Mahasiswa Fakulti (SMF) will organize a programme to which the purpose is to introduce the MBBS course to our dear new students. Since we are still unable to go back to campus due to the global pandemic, similar to last year's IMED, this year's Induction to medicine 2021 or better known as IMED 2021 can only be held online. But fret not, even with setbacks, the team still managed to pull through and make the programme a successful one.

This year IMED theme was "Squid Game" a well-known Korean series on Netflix that gained attraction due to its uniqueness. IMED 2021 was a 5-day programme and is compulsory for all newcomers. It was being held from 4th October until 8th October. Day 1 started off with an opening speech by the director of IMED 2021 and a short briefing on what they should expect in the next 5 days. Next, the students were split up into teams of 10 for groups activities.

Each team will be facilitated by one facilitator. The activities held on day 1 includes brief self-introduction, 3 words ice breaker, Hope and Fears ice breaker and 2 lies 1 truth.

On the second day, they had an introduction to faculty's club and senior sharing session in the evening and continued with fun activities later during the night. Activities held on the second day were the most exciting one yet, which is the Virtual Escape Room. The primary purpose of this game is to make sure they are able to cooperate and work together in groups to solve the problems given.

The third day was the most hectic yet thrilling day of all. The third day is all about games. They had organized a day of e-games which includes Plato, Mobile Legends, PUBG, Among us and Valorant. The aim of this e-games day is to give a platform for the new students to mingle around and find new friends while having fun playing games of their own choice. The fourth day starts off with Alumni Sharing Session. During the session, the students were able to ask any related questions regarding their course and also about work-life as most of the alumni were currently working either as housemen or medical officers.

The fifth day was supposed to be the last day of IMED 2021, but due to some technical issue, we had to postpone the screening of Freshie's Night to the next day. Freshie's night is a talent show night but in groups. Each group was given a week to prepare for Freshie's Night with the theme "Squid Game". Despite only having a week to prepare, all the groups did an excellent job. The winners for Freshie's night 2021 were Group 12, Group 20, and Group 4. Congratulations to all winners. To conclude IMED 2021, it had been a joyful ride to all students, facilitators and members of SMF. Despite having a few hiccups along the way, everyone involved should give a round of applause to themselves as they did a fantastic job making IMED2021 a successful one. 📄
